Pugilist Jack Johnson, in France, Doesn't Propose to Take Chances.

HAS QUIT UNITED STATES FOREVER

Government Seeks Forfeiture of Negro Fighter's $30,000 Bond.

Harve, France, July 10.—Jack Johnson, the negro pugilist, arrived here today on board the Corinthian, and immediately on landing announced his determination never to return to the United States.

He said he would in the future take up his residence in Paris.

TAKES ACTION PROMPTLY.

Government Will Seek Forfeiture of $30,000 Bond at Once.

Washington, July 10.—Jack Johnson's announcement that he would never return to the United States caused department of justice officials immediately to consider steps to bring about the forfeiture of his $30,000 personal bond pending in Chicago for his appearance in connection with white slave indictments upon which he has not yet been tried.

Judge Carpenter, a few days ago, declined to declare the bond forfeited until it was clear that Johnson would not appear when wanted. The department of justice, it is said, probably will seek official confirmation of his announced purpose not to return and present the matter again to Judge Carpenter.

Government attorneys expressed no regret over the negro's announcement. A few days ago officials considered the advisability of asking France to deport him upon arrival, but it was decided to let the case take its usual course. Their view was that there could not be objection to his absence from the country and if he should ever return the year's imprisonment sentence would always be enforceable provided the circuit court of appeals approves the verdict.

Jack Johnson may not find refuge in France, in the opinion of the state department officials. They say that while probably there is no provision in the extradition treaty with France, under which his surrender could be demanded, the French authorities even without a formal appeal from this government, may deport Johnson, as, like most European countries, France is understood to have laws prohibiting the immigration of a person convicted of crime in his own country.

WHELAN YACHT IN COLLISION.

Kiel, Germany, July 10.—The American steel yacht Cassandra, owned by George J. Whelan, of New York, collided today with the German protected cruiser Stettin. Both vessels were somewhat damaged and returned to this port for repairs. Nobody on board was injured.

ENGINEER WAS INEXPERIENCED

Doherty, Whose Train Was Wrecked at Stamford, Uninstructed.

ROAD WAS NEGLIGENT

Washington, July 10. The interstate commerce commission's report of its investigation of the New York, New Haven and Hartford passenger train wreck at Stamford, Conn., on June 12, holds that the railroad was negligent in placing Engineer Doherty in charge of a through passenger train when he "was inexperienced and uninstructed."

The general conclusions, written by Commissioner McChord, include the following statement:

"Establishment of safer and more efficient operation of this railroad is immediately necessary if congressional legislation extending the scope of governmental regulation of railroads is not to be called for and justified in the interests of public safety."

The report declares the whole evidence justifies the following conclusions:

"The engineman of second No. 53 (the wrecked train, Engineer Doherty) did not have the experience and instruction required for the operation of such a train.

"There was negligence on the part of the corporation in putting in charge of such a train as second No. 53 an engineman inexperienced and uninstructed in this class of work.

"Modern steel equipment for high speed passenger trains should be installed at the earliest possible time, as recommended in previous reports of this commission, and legislation fixing such a time should be enacted without delay."

Six passengers were killed in the wreck and twenty were injured.

HER CONFESSION A DRAMATIC ONE

Militant Suffragette Admits Applying Torch to Lever Mansion.

PLACED BOMB, ALSO

Liverpool, Eng., July 10.—A dramatic confession of incendiarism was made by a well known militant suffragette, Mrs. Edith Rigby, wife of a physician at Preston to the magistrate sitting in the police court here today.

Mrs. Rigby admitted it was she who last Tuesday burned down the country residence at Rivington, near Horwich, Lancashire of Sir William H. Lever, causing damage estimated at $100,000. She further confessed to being the perpetrator of the outrage at the Liverpool cotton exchange on July 5, when

SELF DEFENSE SLAYER'S PLEA

Father and Son Surrender for Hawkins Killing at Ingalls.

BROWN DECLARES OFFICER DREW GUN

Bad Blood Between Men as Result of Recent "Blind Tiger" Raid.

Anderson, Ind., July 10.—That his son, William Brown, 27, killed Constable Albert Hawkins, 26, in self-defense at Ingalls, this county, late last night, was the statement made today by William W. Brown township trustee, who witnessed the fatal stabbing. The father and son reached Anderson early today and surrendered.

Hawkins recently made a raid on the hotel building owned by the elder Brown and confiscated considerable liquor and was supposed to have been gathering information regarding a "blind tiger" in Ingalls at the time he was killed.

Brown, sr., said he returned to Ingalls from Fortville about 10 o'clock

EDITORS MEET AT NEW ALBANY

Indiana Democratic Association in Its Mid-Summer Session.

NOTABLES ON TRIP

Indianapolis, Ind., July 10.—Three special interurban cars, containing democratic editors and their wives and a number of politicians left here today for new Albany to attend the mid-summer meeting of the Indiana Democratic Editorial association.

Gov. Ralston, who was on the program for an address tonight was unable to go, but expects to join them at French Lick on Saturday. Mrs. Ralston accompanied the editors today. Tomorrow a visit will be made to Corydon where a session will be held under the "Constitutional elm." Tomorrow afternoon and evening will be spent in Louisville.

On Saturday the editors will be the guests of Superintendent Peyton of the reformatory at Jeffersonville and in the afternoon will leave by special train for French Lick Springs where they will be the guests of Thomas Taggart. Among the democratic leaders who went on today's trip were Secretary of State Ellingham, Attorney General Honan, State Statistician Brolley, State Oil Inspector Fry, Homer F. Cook, speaker of the house of the last legislature, Congressman John A. M. Adair of Portland, and State Senator Van Nuys, of Anderson.

LETTERS COME TO LIGHT BY SCORES

Maid Aid in Solving Mystery Surrounding Death of Miss Crispell.

TELL OF QUARRELS

Wilkesbarre, Pa., July 10.—Scores of letters that passed between Alice Crispell, the 18 year old daughter of a farmer, whose body was found in Harvey's lake last Monday, and Herbert Johns, the mine worker, who is under arrest here in connection with her death, have been made public by the county detectives.

The girl in several missives to Johns told of having quarrels with members of her family.

"So many things are troubling me that I feel like jumping in the lake," she said in one letter. Johns in a letter to the girl, wrote:

"I had a notion to jump into the lake and end all my troubles. Why, darling, I have so many I do not know what to do with them."

County Detective Mckelvy, working on the case, said Johns admitted to him that both had been drinking on the night of the Fourth of July, which was the last night the girl was seen alive. In one of his letters to Miss Crispell Johns wrote: "I am temperance between drinks and so are you dearest. We won't have to wait much longer till the Fourth of July, then we'll have a devil of a time."

Search for Rival Suitors.

Every effort is being made by the local authorities and members of the state constabulary to clear the mystery surrounding the death of the girl. Nearly half a hundred witnesses have been summoned to appear at the inquest to be held tonight in the hotel near where the body was recovered. Search is still being conducted for possible rival suitors, who may have attacked the girl after her sweetheart, Herbert Johns, left her on the night of July 4.

MULHALL TO BE FIRST WITNESS

House Lobby Committee is Making Preliminary Plans for Work.

WILL BEGIN MONDAY

Washington, July 10.—Martin M. Mulhall, confessed "lobbyist" for the National Association of manufacturers probably will be the first witness called before the house lobby committee which met today and made preliminary plans for its investigation which probably will begin Monday. The committee, of which Representative Garrett, of Tennessee, is chairman, includes in its membership Representative Cline, of Indiana.

The Senate Committee.

The senate lobby committee spent the greater part of today in executive session, supposedly looking over the books which the National Wool association furnished yesterday. Clarence Brown of New York chairman of the hosiery manufacturers legislative committee testified briefly at a short open session. William Whitman of Boston, brought to the committee a large letter copy book, and much of its contents was put on the record and not made public. Letters and telegrams between Whitman and S. N. D. North, an employe of the wool men, who was clerk to the senate finance committee and later became director of the census, were put into the record by Senator Reed.

TO PREVENT ICE FAMINE

Fort Wayne Labor Leaders May Launch a Co-Operative Company.

FEDERATION HEAD MAKES STATEMENT

Other Leaders Declare the Situation Should Be Abolished.

Co-operative manufacture, storage and distribution of ice is the solution of this city's ice problem proposed by James A. Lechler, president of the Fort Wayne Federation of Labor and other leaders of the organized labor movement. President Lechler believes that enough stock in a co-operative company can be sold to household consumers and to grocerymen, butchers and saloonkeepers to establish an artificial ice plant and to build houses for the storage of natural ice.

Mr. Lechler also thinks it practicable to harvest immense quantities of natural ice from the lake in Reservoir park, and that the city ought to give a co-operative ice company permission to harvest ice from there.

President Lechler's Views.

To The Sentinel Mr. Lechler said today:

"The present situation is one that the people of Fort Wayne should not tolerate, and the less so since the remedy lies within their reach. There is no reason at all why we should not have a strictly co-operative company in this city to manufacture, store and serve ice. That would not only bring down the price of ice, but it would be an effectual guarantee against any sort of an ice famine so far as those in the co-operative company were concerned.

"The situation in Fort Wayne is not healthy even though there were not shortage of ice. Two concerns control

BREAKS LOW COST OF LIVING RECORD

Girl Student at Ithaca Gets Along on 50 Cents a Week for Food.

IN BEST OF HEALTH

Ithaca, N. Y., July 10.—The record in low cost of living, which a Cornell freshman set by living on 85 cents a week last winter, has been broken by Clara S. Lowens, of Towanda, Pa., who claims to have lived at the rate of 50 cents a week for her food for the last twenty weeks. She is a student of the violin at the Ithaca conservatory.

Her daily menu is a cup of tea, two slices of bread with peanut butter and a cup of cocoa for breakfast, one boiled potato with dairy butter and two slices of bread with peanut butter for dinner. As an occasional treat on Sundays she has had a few tomatoes and occasionally an egg, but all within the $10 limit for twenty weeks.

Miss Lowens is five feet tall and weighs 115 pounds and in the best of health, despite her restricted fare. She won a scholarship in the conservatory, and although she might have received assistance from her parents, she has preferred to educate herself without any help.

Members of The Fort Wayne Lodge of Elks Leave for the Big Convention in Progress at Rochester, N. Y.

Fred Berghoff and Barry Tolan did not intend to go to Rochester with Lodge No. 155, of Fort Wayne, which left ninety six strong Wednesday evening under the leadership of Nate Beadell and L. A. Worch, but they couldn't resist the music and after they had followed the procession to the Nickel Plate depot they bought tickets. Neither of them had prepared to go and if they change any of their clothing while they are gone they will have to borrow or buy.

The parade moved promptly and these pictures were taken as the men passed the Shoaff building on Calhoun street and at the depot just before the train departed.

NOTICE TO DEMOCRATS

Democratic voters of the City of Fort Wayne, who are interested in the independent citizens' movement to secure a non-partisan ticket in the approaching city campaign, are requested to meet with the undersigned in the office of Perry A. NEED RATIONAL BASIS OF COST

Alexander Johnson Scores State Extravagance in Buildings

FOR THE DEFECTIVES

Seattle, Wash., July 10.—Besides the special session to consider Pacific coast immigration, the national conference of charities and correction had four sectional meetings today. Alexander Johnson, general secretary, addressing the section on children, severely criticised the practice of some states in spending $1,000 per capita in building state institutions for invalids.

"When we are face to face with the problem of providing for perhaps one-half of one per cent. of the whole population," he said, "we must get down to a rational basis of cost."

Lewis Meriam, assistant chief of the federal children bureau, contrasted the millions appropriated each year for the bureau of animal industry with the $33,500 for the entire work of the children's bureau.

An Umpire's Decision

JOHN THEME was out with a party of folks in his automobile the other evening, when they drew up beside the roadway to witness a base ball game which was in lively progress in a field west of town.

The contending teams were making an unusual amount of racket, and this, coupled with the fact that one of the clubs was made up of colored boys, caused the party to want to see what was going on.

The colored boys were at bat, and the game seemed to have reached a point where every little movement had a meaning of its own and was particularly important to the success of each side.

The umpire was a colored boy.

One player had succeeded in reaching second base, when a husky colored batter stepped to the plate. It was an exciting moment. The ball whizzed toward the batter. Biff! Out past shortstop it sped, while the batter chased to first. The man on second made a beeline for third, and then, seeing the left-fielder having a little difficulty in grasping the bounding ball, he made a dash for the plate. He threw himself on the ground and made a slide for home, reaching there at about the same time the ball smacked into the catcher's mitt.

It was an important moment. The yells of the players quieted down, while everyone, with bated breath, awaited the decision of the umpire. Stepping forward, that important official addressed the base-runner in this hi-falutin' language:

Addressed the base-runner.

"Boy! You jes' go right home, now, an' address a lettah to yo' folks, and state in dat lettah dat yo' arrived home safe!"

THREATENED TO KILL HIS WIFE

Floyd Weaver, on Rampage, Wife Flees and Police Disarm Him.

NEWS OF THE POLICE

Floyd Weaver, 1924 Spy Run avenue, was on a wild rampage last night and threatened to kill his wife. He had a big revolver and an insane mood and the police were called to quell him. When Officer Charles Eisenhut reached the Weaver home Mrs. Weaver had fled to safety and her whereabouts could not be learned last night, leaving her spouse in possession of the house and his homicidal mania. The police disarmed the frenzied man and got him quieted. No arrest was made. Weaver is thought to be suffering from temporary aberration.

IN THE CITY COURT.

A half-breed Mexican Indian, with the very un-Mexican name of Robert Weber, scratched and bit when Officer Harris arrested him near the Wabash round house last night. He was drunk and disposed to be wild. He got fifteen days.

John Conroy was trying to sleep off an attack of illness on a compost heap in the alley at the rear of the Jefferson theater last night. Officer Charles Eisenhut took him to the station and Judge Mungovan this morning sent him over for a week to recover from the effects of a long debauch.

Jim McGinnis and George Taylor, a pair of drunken vags, were arrested at the transfer corner by Officer Brown last night. They were begging money and were abusive when refused. They were given $1 and costs and sent over.

The case of Lou White, who is charged with grand larceny, was continued till next Tuesday because some of the witnesses are absent from the city. White is the man who is said to have robbed the Centlivre brewry and some of their customers of several hundred dollars worth of beer while employed as a beer driver.

The case of George Auer in surety of the peace proceedings brought by his wife, was continued to the 16th inst., under $500 bond.

Hearing on an affidavit against J. J. McPartland for keeping an unsanitary vault was continued to Tuesday next.

LETTERS COME TO LIGHT BY SCORES

(Continued from Page 1)

Johns, who was taken into custody shortly after the body was discovered, continues to protest his innocence. Widely varying theories are being advanced to account for the girl's death. Those who believe Johns innocent, assert that another man may have killed the girl, or that she was seized with a fainting spell and fell into the lake accidentally.

The detectives ary trying to get possession of a letter which a girl companion of Miss Crispell wrote to her two weeks ago, and which, it is said, may contain some valuable information. Although the Crispell family contradict the statement that their daughter was subject to fainting spells, Johns himself says that the girl had a fainting spell while walking on the streets of this city with him some time ago. The funeral of Miss Crispell took place at her home today.

HER CONFESSION A DRAMTIC ONE

(Continued from Page 1)

a bomb exploded but caused little damage.

Mrs. Rigby surrendered voluntarily to the police. When arraigned today she glorified in her achievements, saying she wanted Sir William H. Lever to consider whether his house was more valuable as a show place than as a beacon lighted for the king and the country to see women suffering an insupportable grievance. She told the magistrate:

"I lighted that beacon. I also placed the explosives in the Liverpool cotton exchange to show how easy it is to procure and place them in public buildings. I might just as easily have blown up the Nelson monument."

She was remanded for further hearing. Mrs. Rigby in the course of her speech to the magistrate said:

"I choose the Liverpool cotton exchange because the cotton industry has been built up largely by women's labor. The merchants are willing to get power and wealth out of the labor of women while the women themselves are denied the vote and citizenship. This is the first knock at the door. Under the cat and mouse act one of the greatest women in the land is going to be done to death. If the government is going to kill that woman, this is a warning."

BEATEN FOR MAYOR; WANTS WIFE.

New Castle Man Makes Search at Richmond and Anderson.

Richmond, Ind., July 10.—Lawrence Van Buskirk, who was a candidate for mayor of New Castle, being defeated by his cousin, George Barnard, is in search of a wife. Van Buskirk was told at his former home, New Lisbon, Ind., that the prettiest girls in Indiana lived in Anderson and Richmond. He first went to Anderson and searched and advertised in vain for a better half. Failing there, he came to Richmond and intends to stay here until he finds the only girl.

"On July 29 I will be thirty years old. If I am not married by that time I will be a full-fledged bachelor," said Van Buskirk when he entered a newspaper office here to insert an advertisement for a wife. "I want to get a good woman to spend my money on before my next birthday. I like blondes the best, but the Mrs. Van Buskirk does not have to be a blonde."

INDIANA PHOTOGRAPHERS MEET.

Convention Being Held at Daguerre Memorial Institute, Winona Lake.

Warsaw, Ind., July 10.—The eighteenth annual convention of the Indiana Association of Photographers is being held in the society's own home, the Daguerre Memorial institute at Winona Lake. Several hundred members are present. Many visitors are present from the large cities of the country. Several thousand pictures are on exhibition and many are entered in the diamond prize contest, which is open to the world. Gold, silver and bronze prizes and a loving cup are offered to Indiana photographers. The awards will be made tonight.

MEETING HERE OF VAST IMPORTANCE

National Committee of Life Companies to Fix New Insurance Rate.

LOCAL MAN CHAIRMAN

Franklin B. Mead, of this city, who is one of the best authorities in the country on the subject of hazardous and unhealthful occupations, and whose book on this topic is now used as a text book by all of the leading American insurance companies, has gone to New York city for a conference with Arthur Hunter, actuary of the New York Life Insurance company, on the matter of fixing insurance rates for subjects whose occupations are unhealthful or risky. Mr. Mead is secretary and actuary of the Lincoln Life company, of this city.

The American Life convention consists of more than one hundred of the younger companies of the country, and at its last meeting a committee on special occupation was appointed with Mr. Mead as chairman. Other members of the committee are Virgil M. Kime, of the American Central Life, of Indianapolis; J. C. Seitz, of the Security Life of America, of Chicago; Dr. H. A. Baker, of the Pittsburg Life, of Pittsburg, and Dr. O. M. Eakins, of the Reliance Life, of Pittsburg.

Members of this committee will meet in Fort Wayne next Thursday to draw up its final report and recommendations to be submitted to the American Life convention at St. Paul next autumn. A. F. Hall, manager of the Lincoln Life is chairman of the medical examination of fees of the American convention.

It is said that hazardous occupation in this country is constantly changing on account of the coming of new industries and the enactment of new laws.

We close Saturdays at 6 p. m. during July and August.

TWO HELD FOR MURDER.

Woman Confesses Plot With Paramour to Kill Her Husband.

New Haven, Conn., July 10.—The coroner today held James Plew, of Middlebndy, and Mrs. Bessie J. Wakefield, of Bristol, criminally responsible for the death of William O. Wakefield, the woman's husband. He found that the death wounds were inflicted by Plew and that Mrs. Wakefield was an accessory to the commission of the crime. Wakefield's body was found in a strip of woods in Cheshire on June 28. He had been shot, stabbed and strangled. Plew and Mrs. Wakefield were arrested. The woman confessed that she had plotted with Plew to get Wakefield out of the way so they might live together.

ROBBED OF HER JEWELS.

Paris, July 10.—Mrs. John F. Martin, of New York, was robbed last evening of jewelry valued at $32,000 at her hotel on the Palace Vendome. She had left the jewels wrapped in a handkerchief on the table in her suite. When she went to her room to dress for dinner they were no longer there.

"When I started home with my son," said the father, "Hawkins followed us across the street. My son and the constable had words in the middle of the street and they mixed. It was then Hawkins drew a revolver on my son and William cut at Hawkins, stabbing Hawkins in the neck. My son did it in self-defense, having been followed all evening by the constable and threatened many times."

The younger Brown merely declared that he acted in self-defense. Hawkins' body was brought here today. The coroner said he found no revolver on or near the body and Hawkins' aunt with whom he lived, said Hawkins did not take it with him.

Brown, jr., was to be charged with murder and the father probably will be charged with being accessory after the fact.

WITHOUT POLICE FORCE.

Two Men Who Constituted "Finest" at Tipton Resign.

Tipton Ind., July 10.—Tipton is without a police force. Patrolman McCullough resigned Tuesday and Chief Devault resigned yesterday. No particular reasons are given for the resignations, but it is possible they grew out of the arrest and conviction of J. H. Mehlig, a druggist, for selling liquor illegally.

WEDS FORT WAYNE WOMAN.

Former Husband of Mrs. Rae Krauss Takes Miss Bledsoe as Bride.

Hartford City, Ind., July 10.—W. R. Krauss, of this city, and Miss Maude Hope Bledsoe, daughter of Mr. and Mrs. Bledsoe, of Fort Wayne, were married today at the home of the bride's parents.

Mr. Krauss several years ago obtained a divorce from Rae Krauss, now serving a life sentence in the woman's reformatory at Indianapolis for the for the murder of his daughter, Crystal Krauss, a crime which attracted the attention of the entire country.

WED AGAIN AFTER 40 YEARS.

Emmett Campbell and Former Wife Marry After Long Separation.

Valparaiso, Ind., July 10.—Emmet Campbell, 71 years old, a resident of this city, last night for the first time in many years, met his wife from whom he was divorced more than forty years ago. They were remarried today.

They were first married here in 1860. Three years later they were divorced. Campbell went to California and the woman to Ohio with her parents. Campbell married in California. He returned with the sond wife to this city and two years ago she died. A son, Walter Campbell, was born to him by the first marriage. Campbell had not seen his son since the child was two years old. Only two weeks ago Campbell received a letter from Walter Campbell, who asked for permission to come here to visit him. "Come along and bring your mother," was the father's answer to the letter and the marriage followed.

GIRLS' CLUB TO WORK AND PLAY

New Endeavor is Launched by the College Club Organization.

WHAT IT HOPES TO DO

A number of young women representing the employes of several of Fort Wayne's factories and stores met last night at the home of Mrs. Fred H. McCulloch and organized a club for the purpose of forwarding social life among working girls and women of the city. In connection with the club and another of its purposes is to establish study classes of all sorts. The girls were brought together through the efforts of the College club. Therefore the new organization, which is not yet perfected to the extent of naming officers, because the personnel is not to be put forward as an attraction, is to be known as the College Club Social and Educational Extension department.

Classes in cooking, sewing and current events have already been formed. Other classes will follow as soon as the demand for them expresses itself. Lessons in these classes will be five cents each, but the place and time is not definitely settled.

The membership will include girls and women from the factories, from the stores, from domestic service or any walk of life from which any girl or woman who believes she can be benefited by attending the classes can come. The organization is to be one where all can meet on a common level of humanity. It is to be of girls, for girls and its work and pleasures will be done and shared by girls.

A Social Feature.

There is to be a social side of the organization so that no one will be led to believe that it is all for study. Of this social life a big feature will be dances held every week or so. These dances are to be well chaperoned, where all classes of people can meet and enjoy an informal good time. Announcement of the time and place for the dances will be made later. At the dances there will be a reception committee whose purpose will be to introduce young men and women to each other so that none need be without partners.

Anyone desiring to become a member of the College Club Social and Educational Extension are asked to send name and address to Miss Minette Baum, 1313 West Wayne street.

GRAFT WITNESS SUICIDES.

Italian Engineer Who Gave Much Evidence, Ends Own Life.

Rome, July 10.—A sensation was caused here today by the suicide of the engineer, Giannini, who was a witness in the notorious graft disclosures in connection with the construction of the palace of justice which cost millions more than the estimate.

Giannini's evidence brought about the implication in the affair of Deputies Luzzatta and Brunialti.

KUHNS STILL GETTING OUT.

Pittsburg Financial Conditions Settle Down to Normal.

Pittsburg, July 10.—Further resignations of J. S. and W. S. Kuhn from all connection with financial interests in Pittsburg were announced today. Both the men who held the majority of the stock of the First-Second National bank, which was closed by the deputy comptroller of the currency Monday, removed themselves from the directorate of the Colonial Trust company of this city, and W. S. Kuhn took like action with respect to the board of the Commonwealth Trust company.

Conditions today have settled down to normal. The run on the Pittsburg for saving, which subsided early yesterday afternoon, was not resumed today.

CITY BREVITIES.

Henry L. Miller, city letter carrier, will leave next week with his wife for an automobile trip through Ohio. They will spend some time at Springfield and Columbus.

Edward Reed, the well known Auburn hotel mananager, formerly clerk at the Randall, is in the city today on business.

A pedro party will be given by the Knights and Ladies of Security Friday afternoon at the Star theater hall.

Dr. Martz, who has just moved into his new home at 207 East Creighton avenue, will still retain his office at 117 West Jefferson street.

The Turner ladies will give a pedro patry at Turner's hall Friday afternoon.

Dick White, of 1708 Howell street, was removed to Hope hospital today to submit to an operation.

ADDITIONAL SOCIETY

A pleasant surprise was given on Mrs. J. L. Hedding, of 3421 South Lafayette street, last evening, when about forty-five friends gathered at her home in honor of her birthday anniversary. Many presents and remembrances were left her to remind her in the future of the event. Before the company returned to their homes they were served with ice cream and cake and lemonade. Mr. and Mrs. Hedding and family expect in the near future to move to Washington.

The music students of Prof. German will give their annual recital at his home in South Wayne avenue on the lawn this evening. There will be both vocal and instrumental numbers.

Miss Mildred Grodrian, who had spent a week since the closing of school with her grandmother, Mrs. Dudley Doyle, returned home yesterday only to find that her mamma, Mrs. A. C. Grodrian, 2709 Hanna street, had arranged, as a surprise, a party of eighteen playmates to celebrate the anniversary of Miss Mildred's seventh birthday. The little ones enjoyed themselves at playing games on the lawn until 5 o'clock, when they were called into the house to partake of a dainty lunch prepared for them by Mrs. Grodrian and her sister, Miss Ruth Doyle. Those invited were Ursula Taney, Gladys Liebig, Vera Aumann, Eveline Aumann, Grace Brouwer, Gertrude Brouwer, Florence Federspiel, Luceile Federspiel, Vivian Conrad, Georgia Fell, Violet Fell, May Middleton, Ethel Masterson, Rachael Grodrian, Ruth Grodrian, Lavon Baum, Lucille Christian and Catherine Barker. There were pretty decorations of pink flowers and a beautiful birthday cake dotted with seven pink candles on its top on the supper table. The children received favors of the afternoon and all spent a merry time.

Miss Florence Hoyt, of Chicago, who is visiting Mrs. Criss Schearer, is the guest for whom Miss Clara Dondero is giving a dinner party at Robison park this evening at 6 o'clock. Covers will be laid for sixteen.

CONTINUES TO IMPROVE.

Paris, July 10.—William F. McCombs chairman of the democratic national committee continues to make excellent progress toward recovery from the effects of the operation for appendicitis performed Tuesday.

NEWS OF FORT WAYNE'S NEIGHBORS

THIS MAN KNOWS SEVEN LANGUAGES

Postoffice Clerk at Logansport Has Learned the Tongues of All Sorts of Foreigners.

Logansport, Ind., July 10.—General Delivery Clerk Robert Manders has mastered seven languages since his appointment to his present office, and has no trouble at all in sorting out the mail of the Italians, Greeks and the various natives of the south of Europe.

It is the custom of some postoffices to put the mail of all these people in one box, and when the individual calls for his mail to turn over to him the whole bunch and let him sort out what belongs to him, and the same request was made of Mr. Manders early in his experience. But he demurred, and when he could not understand the name, he required the caller for mail to write his name, and it was then compared with the names on the letters. In this way he soon became familiar with the various names, and in the course of time had no difficulty in waiting on the man who came with a tangled-up name which could be pronounced by no one but the owner, and could not be spelled at all.

Another way in which the delivery of mail to these people of foreign birth and unpronounceable names is facilitated is to have the boss of the construction gang to which they belong to submit a list of names of the men under his control, and to put the mail all into one box and forward it in bulk to the place where they are working. This is being done just now in the case of a gang of Greeks who are working at Thorpnhope, and it works in a perfectly satisfactory manner. The men know the difficulties under which they labor, and appreciate the efforts of the postoffice employes to accommodate them, there being few, if any cases, where any dishonesty is discovered in regard to mail.

GUARDSMEN VACCINATED.

Van Wert, O., July 10.—At the regular meeting of Co. D Monda, evening at the armory, the first injection of typhoid vaccine was given each man present. The precaution had been decided upon by the officers of the regiment for the protection of themselves and their men, preparatory to the annual encampment at Camp Perry the coming month, not because they think that there is apt to be an epidemic of fever, but because former practice in the United States army has shown the treatment to be of incalculable benefit.

SMALLPOX CLOSES CHURCHES.

Avilla, Ind., July 10.—The churches of Avilla were closed last Sunday and will remain so over next Sunday as a precautionary measure against the spreading of smallpox. About ten days ago several cases were reported in the Gregory Lash neighborhood, northeast of town, and last week Albert Diehm, residing northwest of town, acquired the disease. Several other families who came in contact with them are also quarantined.

ANSWER THE CALL

Fort Wayne People Have Found That This is Necessary.

A cold, a strain, a sudden wrench,
A little cause may hurt the kidneys.
Spells of backache often follow.
Or some irregularity of the urine.
A splendid remedy for such attacks.
A medicine that has satisfied thousands
Is Doan's Kidney Pills, a special kidney remedy.

Many Fort Wayne people rely upon it.

Here is Fort Wayne proof.

Mrs. M. Higgs, 1807 Pine street, Fort Wayne, Ind., says: "I am glad to endorse Doan's Kidney Pills. For many years I have used them whenever I have had kidney trouble and they have always done me a great deal of good. Doan's Kidney Pills can be relied upon to relieve pain the back and other symptoms of disordered kidneys."

Mrs. Higgs is only one of many Fort Wayne people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Higgs had—the remedy backed by home testimony. 50c all stores. LIVED IN DEKALB COUNTY 76 YEARS

Charles W. Widney, One of the Earliest of the County's Pioneers, is Dead at St. Joe.

Auburn, Ind., July 10.—Charles W. Widney, aged 87, and one of the earliest pioneers of DeKalb county is dead at his late home in St. Joe. Death ensued from the infirmities of age.

The deceased came to this country with his parents, Samuel and Joannah Widney, in the year of 1836 and settled on a farm with his parents about a mile north of St. Joe, he remained there and followed farming until a number of years ago when he turned the farm work over to a son-in-law, Jacob Sechler.

The Sechlers later moved to St. Joe, and Mr. Widney made his home with them until death. The late Mr. Widney was twice married. Both wives preceeded him in death.

He leaves a daughter, Mrs. Jacob Sechler, three grand children, Mrs. Cora Curie, Merritt Sechler and Flossie Sechler, a niece, Mrs. Alice Lewis, of Auburn, and a host of other friends and acquaintances to mourn his departure.

The funeral will be held from the Lutheran church in St. Joe, Friday at 2 p. m., of which church he was an active member until old age overtook him. Burial will follow at Riverside cemetery, St. Joe.

BUZZ WAGON IN THE HAYFIELD.

Huntington County Farmer Puts an Automobile to Good Use.

Huntington, Ind., July 10.—Raking hay in the fields and transporting it in wagons to mows by way of automatic hay forks, pulled by motor power from a real chugging automobile, is the latest accomplishment of Huntington county farmers, who, as is commonly known, are noted for progressiveness. The success of the auto power is appreciated to such an extent that farmers predict active use of motor power on farms within the next several years.

During the recent hay harvest on the M. J. Keener farm of the southern part of Wayne township, the automobile belonging to Harry Wolverton was pressed into service in the hayfields. To it was attached a rake, usually propelled by horses. The auto made its rounds of the field successfully, raking the hay in orderly manner.

Later in the operation of storing the hay in mows for the winter, the machine was again harnessed and forced to aid in the harvest. With much ease large forks of hay were lifted from the wagons and transported to the mows. Not once did the machine fail to respond to "its master's touch," say Wayne township farmers.

SUED FOR SETTING FARM AFIRE.

Peculiar Case Is Started in Court at Hartford City.

Hartford City, Ind., July 10.—Damages in $2,000 is demanded in a suit begun in the circuit court by Edward S. Stotlar, Jackson township farmer, against Dr. F. M. Reynolds, of Montpelier.

Stotlar and Reynolds own adjoining farms in Jackson township. In June 1911, a fire started in the muck ground on the defendant's farm and it is alleged that no effort was made to control it. The fire spread to the plaintiff's land, burned over forty acres to a depth of one to four feet, destroying thirteen acres of rye, five acres of potatoes and five acres of growing corn.

The damage to the land was $1,500 and the crops were worth $500. The plaintiff also avers that 250 rods of wire fence worth $250 was destroyed, and that he spent $150 in the employment of men to fight the fire.

SAD FATE OF BAKER'S COW.

Columbia Ciyt, Ind., July 10.—Postmaster J. W. Baker lost a valuable Jersey cow, the "critter" drowning in about six inches of water. As was the custom the animal was chained to a stake so that she could graze for some distance, and get water that runs in the creek in the bottom land of the place. Edward North who was working near, but could not see the favorite animal, heard her appeal for relief, but was unable to get her from the entanglement that held her nose in the water causing her to drown. By the time the owner arrived, he was unable to save the pet Jersey.

GIRL ACCUSES FATHER.

At Logansport Sixteen-Year-Old Miss Makes Ugly Charges.

Logansport, Ind., July 10. — Miss Demia Gardner, 16-year-old daughter of Willard Gardner, blacksmith, residing on Sixth street, made some ugly and sensational charges against the parent when arrainged in juvenile court. The daughter and son, Arthur Gardner, who is several years younger, were arraigned on complaint of the father. The parents separated in May, and the children have been living with the mother on Highland street, on the south side. The father charges that they have been neglected and that they have been running the streets.

LIGHTNING BURNS BARN.

Warsaw, Ind., July 10.—The large barn of Marion Helser, on the Eli Helser farm about two miles northeast of Warsaw, was struck by lightning at about 6 o'clock on Tuesday evening and was burned to the ground. Mr. Helser had just driven into the barn with a load of hay and had unhitched the team from the wagon, when the barn was struck by lightning. Mr. Helser was quite badly shocked and started to run to the house, not knowng that the barn had been struck until he was met by his wife and was told that it was the barn and not the house that was in danger.

Within a few minutes the barn was a mass of flames. The horses that had been hitched to the wagon managed to get out of the barn alone and escaped without injury.

TURKEY BUZZARDS NEAR AVILLA.

Avilla, Ind., July 10.—Mrs. George Linder reports that she saw a turkey buzzard and three young buzzards while picking berries at the David Shanline farm near Avilla. These birds are rare in this section of the country, but are to be found in large numbers in the southern half of the United States. They are of the regular buzzard family but get their name because they have a naked and warted head similar to a turkey. Their plumage is of a dark black color and they are known for their high and graceful flying. In some southern cities the turkey buzzard acts as a scavenger, like the stork in India, and is protected by city statutes.

SCOURGE SITUATION BETTER.

Columbia City, Ind., July 10.—The scarlet fever situation in the town of Etna is somewhat improved at the present time, all of the patients being reported somewhat improved, and it is thought that the epidemic is now under control of the attending physicians. The quarantine in all of the cases is being respected with the utmost diligence on the part of the various inmates of the homes and if this condition keeps up there is no fear of a further spread of the disease. Dr. J. W. C. Scott, who has the majority of the cases under his control, is confident that the patients will all pull through.

FARMER STILL IN JAIL.

Hartford City, Ind., July 10.—Jules Lambiotte, demented farmer, who yesterday wrote out a number of bad checks, and cashed several at one bank, is still in jail. It is probable that owing to his mental condition no charges will be filed against him. Lambiotte is a Frenchman. He lives on a farm and works in the Southside glass factory. Worry over being out of work as a result of the recent shut-down is said have caused his dementia. Leaving home yesterday he told his wife he was going to Muncie and would bring her home $20,000. He started in to get the money here.

LIQUOR LICENSES REFUSED.

Warsaw, Ind., July 10.—Attorney Heller and Whiteleather, of Columbia City, and Leonard, of Fort Wayne representing Dr. N. T. Smith and Pat Galvin, of Pierceton, were before the board of county commissioners on Monday and demanded licenses to operate saloons in Pierceton. The licenses were not granted. The attorneys claimed that the second election was illegal and that the commissioners had no right to call a second election. Appeal has been taken to the circuit court.

WOMAN HURT IN RUNAWAY.

Columbia City, Ind., July 10. — Dragged a hundred yards by a frightened horse she was driving, Mrs. May Hoon, housekeeper for William Wolfe, north of Loon lake, in Noble county, was badly injured. The buggy was upset when the horse ran away and the woman could not get clear of the vehicle. She was very badly cut and bruised and had a narrow escape from death.

WED EIGHT MONTHS AGO.

Columbia City, Ind., July 10.—It has just been learned here that Miss Opal Mullett, daughter of Daniel Mullett, of Washington township, and Walter Schaper, son of Franklin Schaper, of Columbia township, were married eight months ago. The couple went to Hastings, Mich., to have the ceremony performed and decided to keep their marriage a secret for awhile.

WARSAW LAWYER IS DEAD.

Warsaw, Ind., July 10.—After an illness from Bright's disease, Melvin H. Summy, a well-known lawyer, is dead at his home here. He had been unconscious for several days and his death was expected. He was born in this county, practiced law at Mentone, was prosecuting attorney and was city attorney for Warsaw when he died.

JUST TOOK A NOTION TO MARRY.

Auburn, Ind., July 10.—George M. Polsten and Miss Lilly Wyatt went to Detroit on a pleasure trip and while there took a notion to get married. The ceremony was performed in the courthouse in Detroit by an official of the courts. The couple have returned to this city and announced their marriage to their friends.

BOY INJURED BY PITCHFORK.

Bluffton, Ind., July 10.—While his mother was handing him up to his father on a load of hay, Everett, four-year-old son of W. C. Baker, three miles east of Bluffton, was struck in the abdomen by the tines of a falling pitchfork. The sharp steel penetrated his abdomen several inches, but physicians say he will recover without difficulty.

ANSBERRY IMPROVING.

Defiance, O., July 10.—Word has been received in the city from Congressman Ansberry who is now sojourning at Vichey, France, for the benefit of his health. He reports himself as very much improved, and says that he believes with six months more rest and treatment that he will return to the United States as well as ever. His many frineds in this county will undoubtedly be pleased to learn of his improving health.

WELLS COUNTY BARN BURNS.

Bluffton, Ind., July 10.—Lightning struck the barn on the farm of Chris Beers, a mile east of here, and it was burned to the ground with practically a total loss of contents. Three horses were either killed by the lightning or burned to death and seven loads of new hay were destroyed. The loss is about $2,000.

FELL INTO THE CISTERN.

Auburn, Ind., July 10.—While drawing water from a cistern, Miss Cora Baker fell into the reservoir when the entire covering gave away beneath her. She kept her head above water until help came and suffered no more serious consequences than a drenching.

OSSIAN NEWS.

Ossian, Ind., July 10.—Miss Helen Conant, of Toledo, O., came yesterday for a visit in the home of her sister, Mrs. Fred N. Sharp.

Mrs. Iva Brickley Martin and children, of Lafayette, are visiting this week in the home of Mrs. Martin's grandmother, Mrs. T. B. Hunter.

THE SENTINEL'S DAILY SCRIPTURE READING.

Luke 9:23-36.

23 And he said to them all, if any man will come after me, let him deny himself and take up his cross daily and follow me.

24 For whosoever will save his life shall lose it, but whosoever will lose his life for my sake, the same shall save it.

25 For what is a man advantaged if he gain the whole world and lose himself, or be cast away?

26 For whosoever shall be ashamed of me and of my words, of him shall the Son of man be ashamed when he shall come in his own glory and in his Father's, and of the holy angels.

27 But I tell you of a truth, there be some standing here, which shall not taste of death till they see the kingdom of God.

28 And it came to pass about an eight days after these sayings, he took Peter and John and James, and went up into a mountain to pray.

29 And as he prayed, the fashion of his countenance was altered, and his raiment was white and glistening.

30 And, behold, there talked with him two men, which were Moses and Elias:

31 Who appeared in glory, and spake of his decease which he should accomplish at Jerusalem.

32 But Peter and they that were with him were heavy with sleep: and when they were awake, they saw his glory, and the two men that stood with him.

33 And it came to pass, as they departed from him, Peter said unto Jesus, Master, it is good for us to be here: and let us make three tabernacles; one for thee, and one for Moses, and one for Elias: not knowing what he said.

34 While he thus spake, there came a cloud, and overshadowed them: and they feared as they entered into the cloud.

35 And there came a voice out of the cloud, saying, This is my beloved Son: hear him.

36 And when the voice was past, Jesus was found alone. And they kept it close, and told no man in those days any of those things which they had seen.

THURSDAY, JULY 10, 1913.

Progress in the Law.

In his annual address President Frank E. Gavin, of the Indiana Bar association, dealt in entertaining fashion with the current of change and progress in the law which is making it more than ever before responsive to the will and wisdom of the people as developed by newer needs and more modern conceptions of common right and common justice. Naturally, as a lawyer, Mr. Gavin could not refrain from giving voice to some measure of apprehension lest evolution might ultimately be pressed to a degree that would become dissolution. However, Mr. Gavin's distrust is not sufficient to entirely drown out the keynote of optimism running through his address.

Taking up the discussion of our own federal Constitution, Mr. Gavin said that for one hundred years the great majority of the people and statesmen of all political faiths had lauded the Constitution as the perfect flower of human wisdom, but within the last twenty years there had been a revolution in the mode of thought, and the practical working of the constitution has been challenged along many different lines. The possibility of the direct election of United States senators has been brought to pass, he said, and "the abandonment of the electoral college and the direct election of the president and the vice president have now the support of millions of voters of all parties and will probably come in the reasonably near future.

Other radical departures have been marked. Among them are the conferring of greater rights upon women by many states, legislation on child labor, the checking of the white slave traffic, the enactment of employers' liability acts, workmen's compensation and pure food laws. All in all, we do not believe law was ever so responsive to the popular judgment as it is today. It is not perfect and perhaps never will be so, but it is unquestionably making progress.

Neither the railroads, their employes nor the general public wants to see the threatened strike by conductors and trainmen materialize, and the opposing sides in the difference may be expected to proceed very slowly in any movement of a drastic nature. Each realizes as never before that the public will justifiably insist in having something to say regarding a matter that so largely involves its convenience, and there is a promising augury in the appeal to President Wilson to urge the adoption of the proposed amendment to the Erdman arbitration act. Early action by congress would in all probability place the difference in the way of prompt adjustment without serious difficulty.

Pugilist Jack Johnson, who has just landed in Europe, after having slipped out of the officers' hand with a prison sentence hanging over his head, gleefully announces that he will never return to the United States, but purposes to take up his permanent residence in gay Paree. Somehow we fancy this arrangement will be generally applauded on this side of the Atlantic.

With track elevation at two of the main thoroughfares of the city dragging along in an incomplete state and with the absolute minimum of activity shown for months, the Wabash railroad can scarcely have further claim upon the patience of Fort Wayne. The city ought to insist upon immediate performance instead of mere promise both at Fairfield avenue and at Broadway.

Speaking of partisan politics and city affairs—but, then, the people of Fort Wayne are unmistakably getting ready to divorce city affairs from politics be concerted action as citizens and not as partisans. It is the only sane and reasonable way to deal with city problems.

THE NINETY-MILES-AN-HOUR MAN.

(New York World.)

A young man who on the strength of an inherited fortune is a "director in twenty-three corporations" (count 'em!) has made himself momentarily conspicuous by hiring a special train to rush him from Minneapolis to New York ahead of all other trains. "When I travel," he says, "I want to move. My time is worth money and I waste time on slow trains."

Considering that he reached New York Saturday noon for a directors' meeting that was not to be held till Monday, it is difficult to see how the expensive fast train benefited the young millionaire any more than a regular express would have done. Men may give just as intelligent attention to their business affairs on a slow train as in a hotel cafe, and, in this day of buffet and "club cars," amid quite as exhilarating surroundings.

But the incident is suggestive as showing the aggravated symptoms of a mania for hurrying that is beginning to obsess a large part of the public in greater or less degree.

Nowadays everybody "wants to move" when traveling to "get there" ahead of schedule; and for what use? What do those who make a "saving" of the "time that is worth money" ever do with the precious commodity which they acquire by the waste of so much real money? What do the people who ride only in extra-fare trains and take five-day boats to England do with the surplus of time "saved?"

If all the fragments of days and hours thus economized were actually utilized and devoted to something worth while, there would be an appreciable gain in national efficiency. But, in fact, the usual process is to waste them in idleness or in a self-satisfied contemplation of the "stunt" performed. Those most eager to save money at any cost are habitually most prodigal of it afterward.

PRESS DISCUSSES THE REMARKABLE LAMAR.

"Financial Yeggman."

Burlington Free Press: "It is hard to see that the Lamar testimony before the senate lobby investigating committee boils down to anything more than the confessions of a financial yeggman."

"Almost Preclude Belief."

Schenectady Union-Star: "The admissions of David Lamar are of such nature as to almost preclude belief in any moral quality in the man making them."

"Amazing Story."

Washington Star: "A more amazing story of deception, fraud and duplicity was probably never before told on the witness stand than that related by a man calling himself David Lamar."

"Shockingly Candid."

Providence Journal: "Mr. David Lamar is shockingly candid. He does not fall back on 'don't remember,' nor clap a clothespin on his mouth by advice of counsel."

"To Be Made Felony."

Brooklyn Eagle: "To Lamar is to be made a felony by United States statute."

"Contemptible."

Rochester Union and Advertiser: "If the world has ever seen anything as contemptible as Lamar it has thus far succeeded in concealing the thing and likewise the fact."

"Find Out Lamar."

Detroit News-Tribune: "The proper thing for the investigating committee to do, as we see it, is to pursue the investigation until it finds out just who and what Lamar is."

"Amazing Character."

Syracuse Herald: "A most amazing character, this wolf of Wall street, as he has been called, and one to whom some novelist should not fail to give his attention. Such magnificent audacity deserves embalming in a book."

NO GROUND FOR APPREHENSION.

(Chicago Record-Herald.)

The statements made by Secretary McAdoo, by the Pittsburg Clearing House association, by leading Chicago bankers and others establish these things with reference to the collapse of the First-Second national in the Smoky City.

That the failure is not a surprise to Pittsburg bankers or to the treasury department; that it is due to bad and unsound banking extending over a period of years; that the chief difficulty lay in the unloading on the bank of depreciated and indigestible securities; that the control of the bank was secured with a view to the unloading of such securities, and, finally, that the department of justice may take a hand in the situation and determine whether the law has been violated by the bank, and if so, where responsibility rests for the violation.

The citizen who runs as he reads important news should assimilate these facts and pass them on to his neighbors and friends. The Pittsburg failure is not due to the pending tariff or banking bill, and it is not even remotely connected with any general financial or industrial condition. Bad baking is rarer than formerly, but it has not yet been entirely reformed. There is nothing for cheap politicians or partisan alarmists in the Pittsburg failure. A hint to this effect can do no harm.

"WABASH VALLEY LINES"

MORE TO AID NON-PARTISAN TICKET

Republicans and Democrats in Support of Independent Movement.

SAY IT'S BEST PLAN

"Fort Wayne, like other large cities, has been run so long by contending political parties that it is difficult for the average citizen to realize that it can be governed in any other way."

This statement was made by Hon. Charles McCulloch, president of the Hamilton National bank, as he discussed the advantages of the proposed independent ticket in the municipal campaign in Fort Wayne.

"The real and true fact is that politics, as regarded in state and governmental affairs, has nothing to do with the practical business affairs of our city," continued Mr. McCulloch. "I think of Fort Wayne as a big business organization, quite similar to a business corporation, in which every citizen is a stockholder. All each stockholder cares is to have its varied interests managed by officers possessing good business qualifications, regardless of race, religion and political affiliations, and that a large majority of the people should select these officials. It is unfortunate that every citizen cannot for a few moments put aside all business affairs and attend the primaries, and thereby express their choice for the officials that are to be voted for. If they did this, then there could be no complaint, for the officials so selected would represent the wishes of the majority.

The Primary Questions.

"In my opinion, Mr. Hosey, very soon after he retired from office as mayor, began to work for a renomination, and that by doing so, and by his ability as a talker and his experience as an official, has been able to draw to his support a little more than one-sixth of the number of voters, most of these of political bias, and on this account no other man of prominence felt like becoming a candidate, knowing that the majority of voters do not express their wishes at the primaries, and that it would be almost useless to contend against a man who had been at work simply as a politician for four years.

"On account of present conditions I would like to see a good independent ticket put in the field, and I believe such a ticket can be elected. I believe Mr. Hosey has selected the men he intends to appoint on(the different boards, and for superintendent of police and city attorney, and that these are quietly but effectively working for his election.

"The question for the majority of voters to decide is: Shall we elect our mayor and request him to select men well fitted for these different positions, regardless of politics, race or religions, or sit supinely by and let Mr. Hosey become mayor again merely because he wants it for the sulary that it brings?"

The People Want It.

Louis F. Curdes, the well known real estate man, is a strong advocate of the proposed independent ticket in the coming campaign. Mr. Curdes believes that a city such as this should be governed in a non-partisan manner and believes that now is the time to inaugurate such a plan for the future welfare of the city.

"The independent movement is meeting the approval of men in all walks of life and of all political faith," said Mr. Curdes this morning. "I meet hundreds of people each day in an aside from business, and the majority of those with whom I discuss the local situation are heatily in favor of the proposed plan which is being arranged to rid the city of political manipulation in the administration of municipal affairs.

"It is ridiculous to think that a political party must rule the city. What Fort Wayne needs is a business administration, and the only way to get efficient men into office is by the cooperation of all, for the election of an independent non-partisan ticket next fall. Place good men on the list and the independent ticket will be given a sweeping victory."

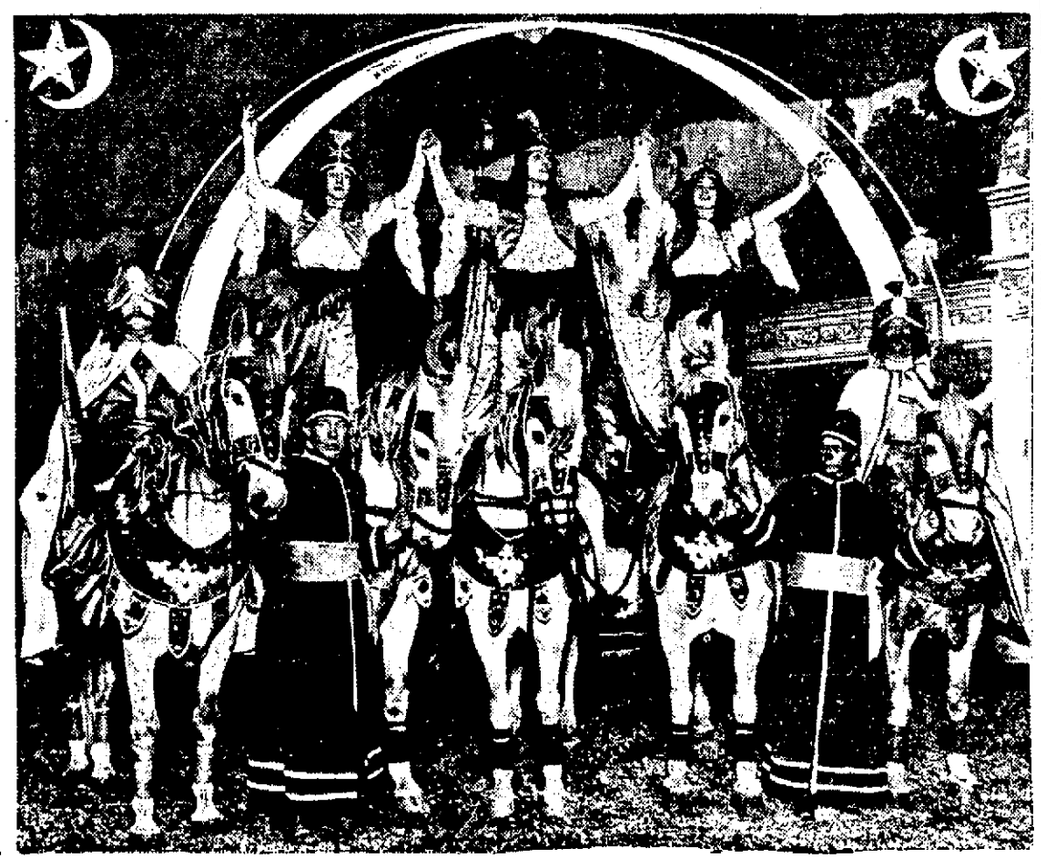
BALKANI TROUPE—ONE OF THE BIG RIDING ACTS WITH RINGLING BROTHERS CIRCUS, COMING SATURDAY.



Sometimes, even in the fascinating land of sawdust and spangles, fact and romance so entwine themselves that it makes an interesting story, and such is the case with a group of picturesque equesthennes who are among the host of new features to be seen in Fort Wayne next Saturday with Ringling Brothers' circus. This act is known as the Balkan troupe of oriental harem riders and the circus critics in the various cities where the Ringling show has already exhibited this season have pronounced it the most sensational and daring riding exhibition ever seen in a circus ring. Concerning this new feature, and its discovery there hinges a most interesting story.

When their country was at war recently it became a custom of the Balkans to cheer and pacify those who remained at home with fetes and festivities, held in the innermost valleys of the Balkan states, far away from the enemy. Being skilled in all branches of outdoor sport and especially in feats of dashing horsemanship, these entertaines teemed with events of thrill and interest. However, these entertainments were for the Balkan people alone and no stranger ever came down over the hills when the dancers and gaily costumed riders were in the midst of their celebrations.

However, one day a man from the outside world did come over the mountains and it was during one of these festive occasions that he arrived. He was buying horses, and being a man well known to them all he was trusted and welcomed at one of the entertainments. This visitor was Albert Hodgeni, a famous European horse trainer, who for the last five years has divided his time between making annual trips to the far east and training blooded steeds for the Ringling Brothers' circus.

Hodgeni was eager to witness all the events of the day's entertainment, and especially the riding. Toward the end of the festival an equestrenne act was introduced and, although Hodgeni in his long experience had seen what he thought to be everything new under the sun in the way of horsemanship, yet he was astounded at this thrilling performance. It was a native Balkan act, done with all the color and languid atmosphere of the orient, but with a skill and dash that was absolutely dazzling to the eye. Upon reaching the earnest city Hodgeni immediately cabled the Ringling Brothers of what he had seen and he received a reply ordering him to engage the entire troupe and bring them to America at any cost.

Then came the difficult task of prevailing upon this troupe of men and women to give up their homes in the Balkan mountains and cross the sea to a strange land, bringing with them their Arabian stallions and the peculiar "dijahara," which is the native name given to the gaily curtained wagonette used in the act. At last, after weeks of entreaty, Hodgeni prevailed and the Balkan troupe agreed to visit America, but only with the understanding that should their country need them in war, their return should be permitted immediately.

The act of the Balkan troupe is most peculiar and spectacular and has astounded old time riders to as great an extent as it has won the unbounded admiration of circus riders this season. To the dulcet strains of oriental music the richly draped wagonette enters the ring, drawn by thee Arabian stallions, under the escort of armed outriders. Peeping through the curtains of the "dijaharn" are the veiled women, while lounging beside them are the men, smoking lazily at their pipes. Suddenly a crash of cymbals breaks into the music and the women leap from the wagonette to the bare backs of the horses, and in their gorgeously colored and quaintly trousered costumes give an exhibition of the most daring and sensational riding feats that have ever been attempted. Thrilling vaulting feats and double pirouting tricks are performed with an ease never before demonstrated by the foremost circus riders of the world.

HINTS and RECIPES

By MRS. MARY MILLER.

To make the delicious pastries called for in my talks on "Hints and Recipes" the very best materials must be used or you cannot expect the best results. The most important is the flavoring. Experience has taught that none but the best must be used and for that reason. I always recommend a brand that I know to be the best, and which I know will be successful in my recipes.

BROWN BETSY.

Slice raw apples very thin, grate stale bread over them. To each layer of apples add sugar, powdered cinnamon and butter until the dish is full. Bake slowly for three hours and serve with cream or sauce.

CHARLOTTE RUSSE.

To one pint of cream add one-half cup of powdered sugar and whip to a stiff froth. Beat the whites of two eggs as stiff as possible; dissolve a tablespoon of gelatine in a half cup of milk, then pour over it one-half cup of hot milk and let stand until cool. Add the eggs and gelatine to cream alternately, flavor with SOUDERS' Vanilla. Line a bowl with lady fingers and pour in russe.

ALMOND CREAM.

One quart of cream, three tablespoons of sifted sugar, one-fourth teaspoon SOUDERS' Almond. Whip until thick, then add one-third pound candied cherries, one-fourth pound marshmallows cut in quarters and one-half cup blanched almonds chopped fine.

For further recipes see next Thursday's paper.

NEWVILLE NEWS.

Newville, Ind., July 10.—Mrs. Charles Redeker, of Boise City, Idaho, is the guest of John Davis and wife. She expects to remain all summer.

A. E. Koeppe and family spent Sunday with friends in Spencerville.

Rev. Konkle, son and father, of Butler, and Stanley Webster and family were Sunday guests of W. L. Strong and wife.

Gladys Smith spent the Fourth in Chicago with Herbert Webster.

Samuel Francis, of Kendallville, was the guest of Ethel Wilderson over Sunday.

Mrs. Cornelia Coombs, of Hicksville, spent Saturday with Mrs. E. J. Ryan.

Trustee Whitehurst took the enumeration of the voters of the township last week.

Dr. Lake, of St. Joe, made a professional call here Wednesday.

Dr. Emanuel, of Edgerton, was called here Thursday by the critical illness of O. Wilderson.

Mrs. Ella Allen, of Hicksville, is the guest of Mrs. Ryan and Mr. Herrick.

W. K. Miller moved to his farm east of town last week.

About sixty members of the U. B. Sunday school gave Valoris Gaff and wife a charivari and shower Wednesday evening. Cake and ice cream were served and a good time enjoyed by all. When it comes to tooting one's own horn, Rev. Givens is "it."

H. K. Schondelmayer, of Grand Rapids, Mich., spent several days last week with Miss Mary Strong.

Mrs. W. C. DeLong and daughter, Ruth, were here from Chicago over the Fourth, visiting Mrs. Susie Rex.

Mrs. Harriett Stafford was quite ill last week with indigestion.

Mrs. Grace Benner and child, of Peru, are guests of her parents, Maurice Headley and wife.

Gladys Kain left Sunday for Angola, where she will take a special course in primary work.

The storm Tuesday evening did considerable damage to telephone lines, trees, fences and outbuildings and leveled several cornfields.

Forest Kain and Maud Platter were home from Angola over Sunday.

L. C. Greist and family and B. F. Greist and family, of Hicksville, spent a safe and sane Fourth at this place.

The Blues, who were defeated By the Pinks in the recent Sunday school test at the Christian church, will serve ice cream and cake in the church basement July 12.

Calvin Kain was home from Fremont, O., from Thursday till Sunday.

Sunday evening Paul Rex, Guy Smith, Chloe Houck and Zemal Bachtal were out riding and encountered a tree blown across the road north of town. In attempting to drive around it the horse backed the buggy into a ravine and fell upon it, killing the horse, which belonged to Wm. Rex, and demolished the buggy. Luckily for the young people they escaped without any serious injury.

E. Inhofe and wife, Elmer Wyatt and wife, Sam Wyatt and family attended the reception Sunday given Valoris Gaff and wife at the home of the groom's parents, near Butler.

Juanita Crum, of Butler, is the guest this week of Mary Strong.

Ft. Wayne Druggist Deserves Praise

H. W. Meinzen, corner of Maumee and University, deserves praise from Fort Wayne people for introducing here the simple buckthorn bark and glycerine mixture, known as Adler-i-ka. This simple German remedy first became famous by curing appendicitis and it has now been discovered that a SINGLE DOSE relieves sour stomach, gas on the stomach and constipation INSTANTLY. Its quick action is a big surprise to people.—Adv.

JULY SALE

Fine Player-Pianos Worth Four Hundred and Fifty Dollars

AT $450

A lady said to me the other day, "What do you think of so and so offering me a $600 Player for $450," and we said to her, "So and so is the best judge of the value of his own instruments."

We have a wonderful line of four-hundred-and-fifty dollar Player Pianos awaiting your inspection.

It is not improbable that many music stores would state their worth as $600 or more.

We will even admit that they are worth that much, according to the standards of some stores.

But, according to our standards, they are worth just four hundred and fifty dollars and all of four hundred and fifty.

If, however, you want a six-hundred-dollar Player at four hundred and fifty, ours is not the store for you.

There are two reasons why we do not sell $600 Players at $450. First, We cannot afford it; Second, The judgment of the public renders it quite unnecessary.

But we will sell you a $450 Player Piano that for tone, durability, style, cannot be matched at this price anywhere else.

Mahogany	Oak	Walnut
$450	$450	$450

Latest improved 88-note models. Excellent Pianos for the children to learn to play on. Beautiful tuned instrument for hand playing and containing all the modern expression devices that enables you to play all music artistically. Our special July terms are moderate. Get them today.

The prettiest kind of a thimble party was given this afternoon at the home of Mr. and Mrs. James D. Lewis, of 914 West Wayne street, when their daughter, Marjorie Erma, announced her engagement to Nikola Carl Pierce, formerly of Wallingford, Conn., but now located in this city. The intimate friends Miss Lewis invited to bring their sewing and spend the afternoon with her had little inkling of the secret which the supper was to bring forth. Each guest found a dainty basket filled with pink sweetpeas at her place. Someone soon discovered a card that was hidden in the flowers and then congratulations were extended, for the card not only bore the names of Miss Lewis and Mr. Pierce but also gave the date of September 30 for the wedding. A basket of pink sweetpeas formed the center decoration of the attractive looking table and the same color appeared in other appointments and in the menu. Miss Lewis is a very sweet and charming young woman. Mr. Pierce was graduated from Sheffield Scientific department of Yale in electrical engineering and he is employed in the sales department of the Fort Wayne Electric company. He enjoys an acquaintance of many friends and is highly esteemed.

24 The Seven Ages of Woman in Love: Chapter Three--At Twenty-Four She Discovers Man As He Is.

(By Winnie Lee.)

Not until she comes to the third of the seven-ages-of-woman-in-love does woman discover man.

She is then about twenty-four. Her dream of the fascinating prince has vanished. She has dropped her pose as the queen of love. She sees man as he is.

Or thinks she does!

College girl, home girl or business girl—trained in different schools, but equally observant—she accepts man's faults. Probably she exaggerates them. But she likes him just that way.

Human, she calls him!

So her lover need not be the superman. But he must be something infinitely nicer, he must be the companion.

"Friendship before love," quotes Twenty-four. Man doesn't always see it that way.

Twenty-four knows there is a world-ful of work to be done, and she seeks the opportunity to do her share.

She knows there are children to be born, but she is not afraid.

She knows there are disappointments to face, but she has courage to meet them.

If she cannot inspire her husband, she would at least appreciate him.

She would make his home the place of rest, where she can renew his strength for the worldly battle.

And wonderful indeed is life when woman may be all this to one man. Poetry tells us all about it.

Twenty-four will not hide her husband's pipe. Nor snub his choicest friend. Nor compete with his stenographer. She reasons that the latter lady is trying to arrange her own matrimonial venture, and will not imperil it by mere silliness at the office.

Yet Twenty-four knows that hearts must break, and she offers her own as a sacrifice. Therefore, blinded by her own willingness to accept man's faults, she sometimes accepts too many of them.

Evidently, Twenty-four takes life very seriously, indeed.

But man, young man, her natural mate, takes life as a game. He experiments with life. And Twenty-four is only part of his experiment.

Now man may be very simple or very complex. No woman has ever found out which. It is possible that man himself does not know.

So who shall say that love is blind when Twenty-four, though she see man as he is, sees him all alike, hero, saint and sinner, all in one?

It may be that the vision of woman in her third age of love is very clear, indeed!

SHE SEES MAN AS HE IS.

AT THE JEFFERSON

The long looked for feature, "Beauty and the Beast," is showing today and tonight. The story is too well known to need repeating here, the production is elaborate and wonderfully portrayed; it will interest the young and the old. Friday is Jubilee night and a fine array of talent has been secured. Coming soon is "The Major's Story" a splendid dramatic effort, besides the usual scenic and educational views. Kinemacolors in their present form are generally agreed the last word in motion views, for not only are they distinct and steady, but the coloring is marvelous.

Friday night will bring the amateurs again, and there are already announced a list of four contestants for the prize money. The field is open, and any desiring to appear on that evening can do so by leaving their names at the Empress box office. The amateurs will appear at both performances on Friday evening.

AT THE EMPRESS

Every boy and girl attending the Empress matinee on Saturday afternoon will be presented with an interesting little toy. The theater management through an importing firm secured a big consignment of these gifts and will present every boy and girl attending the matinee on Saturday with one. The special five cent tickets, for children under twelve years of age on Saturday afternoon is conceded to be the biggest show bargain ever.

With five splendid acts and the beautiful Kinemacolor pictures, the big cool Empress is a safe and delightful spot for the kiddies on Saturday afternoon. Today brings a new program of Kinemacolor pictures, the new list including is "Quincy Sawyer" in four reels and a beautiful production of "Salome." This is better than was "Cleopatra."

SUMMER READING FOR CHILDREN.

Public Library Arranges to Circulate Books at Bowser Playground.

The children's department of the public library is making arrangements for a collection of children's books to be placed in the Bowser playground. These books will be in charge of one of the librarians from the children's department, and will be given out from the playground every Tuesday afternoon from 3 to 5 o'clock.

During the school term the children of that portion of the city have had a deposit station at the James H. Smart school, from which they were allowed to borrow books, and over 3,000 books were circulated since last November from that station. Placing the deposit station in the Bowser playground during the summer months is done so that these same children may have access to library books during vacation.

126 E. BERRY ST. SMART CLOTHES for WOMEN BET. CALHOUN ST. AND POST OFFICE

THE BUSINESS GIRL'S CLOTHES

Cleanliness and Simplicity Count More Than Style With the Majority.

The Sentinel has often given hints to business girls and women about the best way to dress. Now it gives the advice of a woman of New York who has made observations of women and girl employes and consulted their employers.

"Instead of wearing gaudy colors, stripes and loud patterns, which are always conspicuous and should be avoided for office wear, select plain materials of refined coloring. Avoid cheap materials and imitations. If you can afford only one dress, buy a good business suit. Save your low neck, short sleeves and fussy dresses for the leisure hours. Jewelry, except the necessities, should not be worn. Young girls make a great mistake by donning quantities of cheap jewelry," so says a New Yorker who has been making observations and is a successful business woman herself.

On the subject of powder this business woman says a little bit goes a long way. She has collected a number of statistics from business houses and the results are rather startling as showing how many applicants are generally disqualified for uncleanliness, in some instances the disqualifications for lack of neatness being 75 per cent.

Relative to a pleasing appearance, the lady goes on to say: "I have been told recently by a number of the leading business men that appearance counts 100 per cent. with them. If a girl is not neat and clean she is refused the position, even though she has ability and experience. Those who first learn how to dress and to conduct themselves in the office are putting themselves in the way of advancement. If we could only impress upon people the necessity of cultivating soft, melodious tones instead of loud, boisterous, noisy, rattling voices, we would find that the health, character and personal poise and charm would be so developed that others would deem it a pleasure to meet us in the business world.

"The poise of the body is another thing which requires serious attention. Learn to walk correctly with the swinging hip, light, elastic, springing step, and you not only will find yourself refreshed from walking out of doors, but will gain the admiration and applause of your friends for a graceful carriage indoors, and in the business world will leave the impression of an energetic person."

A FRAGRANT GIFT.

Gilded and uncolored baskets, containing each a bottle of delicate perfume decorated with a bow of ribbon or a bunch of flowers, make welcome little gifts.

THE YELLOW STOCKING.

Broadway, New York, was amused on a recent morning by the sight of a young woman wearing a dark blue costume slit up one side and showing with every second step a yellow stocking visible to the knee. Every one stared, every one turned to look after this spectacle, and many laughed. But the young woman herself peacocked along in a peculiarly aggressive manner and seemed to take for admiration the tokens of surprise she caused.

It would have been easy to make herself less conspicuous, and yet enjoy the freedom of the cut-up skirt, by wearing stockings in the same color as the gown. It was the bright yellow that made her so conspicuous. This is an extreme case of the skirt in question. It seems to have come to stay, and many suppose that it is but the prelude to the coming similarity of the dress of both sexes. Certain it is that the very narrow mermaid skirt prevents freedom in walking and renders ridiculous those who attempt to step from the curb to a cab without first raising the gown to a point somewhere about the knees. There are only half a dozen women in America who are so beautifully formed that they can wear with impunity these very tightly moulded gowns.

ELKS HAVE GALA DAY AT ROCHESTER

Vast Throng Witnesses the Spectacular Events of Reunion

MANY FINE FEATURES

Rochester, N. Y., July 10.—Elks from nearby towns and cities in the state poured into Rochester early today for the big spectacular day of the forty-ninth annual grand lodge reunion of the order. A parade of marching clubs and bands was scheduled with competitive drills for prizes and band concerts in Genesee Valley park.

Tonight Rochester will contribute her share of the spectacular features when the city annual water carnival will take place on the upper Genesee river, followed by a pyrotechnic display.

The grand lodge yesterday accepted the $260,000 bid of a Salt Lake City contractor and will build a new national home. Whether the home shall be on the site of the present home in Bedford, Va., or elsewhere, rested with the national home commission, of which Garry Hermann of Cincinnati is chairman. Discussion of the report of Mr. Hermann on plans for the home occupied all the the afternoon session. For three consecutive years the commission had reported in favor of erecting the home on the old site. This year a movement was launched in favor of its erection at some other place. The only expressed objection to the present site is that inmates are isolated and become lonesome. The Bedford home has been in existence ten years. Bedford, Indiana offered a $250,000 site to the grand lodge.

A per capita tax of 25 cents will be levied on the members of subordinate lodges, giving approximately $100,000 to apply on the cost of the new home.

Flames Sweeping Mt. Tamalpais Menace Many Little Hamlets.

SOLDIERS ON LINES

San Francisco, July 10.—Five soldiers are reported burned to death and a half dozen little hamlets and towns at the foot of Mount Tamalpais await their salvation or destruction today, while the fire which has swept the mountain for three days, is reaching toward the plains and vineyards to the north, and the Muir Woods National park, on the south.

Every available soldier from the San Francisco Presidio and Fort Winfield Scott, on this side of the bay, and Forts Baker and Barry, across the Golden Gate, is fighting the fire, side by side with civilians and sailors from United States war vessels. Probably six thousand men are on the fire lines seeking to beat back or wear down a blaze which broke out with increasing fury late yesterday and extended early this morning over a ten mile sweep.

Captain Charles P. Plunkett, commanding the cruiser South Dakota, marched six hundred of his men from the Mill Valley station up to the border of the fire in Cascade canyon early this morning, took a look at the fire, and marched them back again. Captain Plunkett said:

"It would take all the people in California to put out that fire. Let it burn out. I have expert gun pointers among my men, worth $25,000 apiece to the government. I am not going to risk their lives."

TARIFF BILL IS READY TO REPORT

Republicans Will Hardly Attempt to Delay the Measure.

DEBATE NEXT MONDAY

Washington, July 10.—Chairman Simmons has called the finance committee to meet tomorrow with the intention of reporting the tariff bill to the senate tomorrow afternoon. Republican members probably will not attempt any delay.

The democrats propose to begin the debate Monday and keep the bill continuously before the senate until it is passed. Republican leaders agree that this probably will be before September 1.

Senator Smoot predicted today that there would be no currency legislation until winter.

New Delay for Currency Bill.

Currency reform encountered renewed delay in the senate committee today when Chairman Owen endeavored to have the administration bill taken up for immediate consideration. Objections to the opening of the currency question while the tariff bill is pending resulted in an adjournment with no definite plan in view for consideration of the bill.

Defers Reply to Japan.

After a conference of an hour and a quarter with Ambassador Chinda, Secretary Bryan today announced that the dispatch of the reply to the two latest Japanese notes on the California anti-alien land law might be deferred until next week. Mr. Bryan before the conference had said he had expected to make the reply before the end of this week. No reason for the change was given.

WAVES DASH TOO HIGH FOR JOHNSON

New Delay in His Effort to Catch Up With Airboat Competitors.

FRANCIS LUCKY ONE

Chicago, July 10.—Waves "high as a house" dashed upon the beach at Robertsdale, Ind., today, and threatened to delay until this evening or early tomorrow Walter Johnson's attempt to catch up with the Chicago-Detroit aviators in his hydro-aeroplane. Johnson was disappointed at the new obstacle that prevented him getting away, for he had just installed a new magneto and a new propeller and gasoline enough to run him 250 miles.

Glenn Martin's machine, which was wrecked in a practice spin the day before the race started, is practically complete, and only the heavy sea prevented his starting. He probably will follow the shore line and except for a stop somewhere en route for gasoline expects to make Macatawa, which is Johnson's destination also. It is believed here that Havens' trip from Michigan City to Macatawa was made mainly on the water, since it was said he has had trouble in rising.

Roy N. Francis, of San Francisco, who started a day later than Havens, is at South Haven receiving congratulations at his escape from death last night when his machine struck a half submerged log, shattering the propeller. Another is on the way and he hoped to get started late this afternoon.

Francis arrived at South Haven late yesterday afternoon, and after making some repairs skimmed down the river at twilight, hoping to make Macatawa Bay before dark. Out in the lake the machine struck a log and the propeller blades splintered. Darkness prevented watchers on shore from witnessing the accident. An hour later they learned by telephone that the aviator had not arrived at Macatawa and the life-savers were notified. They picked up the drifting flying boat about 9 o'clock.

Tony Jannus, of St. Louis, who paddled for three hours with a passenger during Tuesday's storm, and was rescued by a tug, searched all yesterday for the machine he was forced to abandon, without finding trace of it.

Secretary of Navy Inspects Perry's Historic Flagship.

Erie, Pa., July 10.—A salute of nineteen guns from the naval training ship Wolverine greeted Secretary of the Navy Daniels when he arrived at the water front today to inspect Commodore Perry's flagship, the Niagara, raised from the bottom of Lake Erie and rebuilt for the observance of Perry's victory at Put-in-Bay. With other prominent guests, the secretary was entertained at luncheon by the Erie Centennial commission. This afternoon he was escorted by a detail from the Pennsylvania naval militia to Perry square, where he delivered an address.

Board of Works Trying to Prod Wabash to Hasten Elevation Work.

THE MUNICIPAL NEWS

Superintendent Sullivan, of the Fort Wayne division of the Wabash railroad, and Engineer Danes, of the same road, are with the board of works this afternoon discussing the completion of work at the Broadway and Fairfield avenue grade separations.

The board wants to know when the Wabash is going to carry its part of the work far enough to permit the city to get these streets open to traffic and it will press Mr. Sullivan hard for satisfactory answers.

City work at both crossings is at a standstill in consequence of the railroad's tardiness. If the Wabash will place its capping and remove its piling from Fairfield avenue the pavement can be completed in a few days thereafter and the street put in service. Broadway cannot be closed to traffic to permit the city to go ahead until Fairfield avenue is opened to traffic.

The board also wants to know if the Wabash has let the contract for bridge work at Harrison street, and if it has not, when it is going to do so.

Has Little To Do Tonight.

The meeting of the board of works tonight will be a dull affair if the outlook this afternoon is verified. There is nothing scheduled by Clerk Becker and unless business turns up by meeting time it will be a short and uneventful session.

City Hall Notes.

Marion B. Johnson, of the board of safety will leave Saturday with his family for a ten days' outing at Lake George. Before his return W. D. Henderson of the same board will go to Wawasee with his family for a stay of two or three weeks.

The contractors today finished the work of laying concrete for the pavement on College street.

CALLS ELECTING JUDGES FAILURE

They Should Be Appointed, Declares Indianapolis Attorney.

LAWYERS IN SESSION

Indianapolis, Ind., July 10.—That judges should be appointed and not elected was the declaration by Merrill Moores, of Indianapolis, who addressed the Indiana Bar association at the annual convention here today. He declared that the sixty years' experiment of electing judges in Indiana had proved a failure and compared the Indiana courts to the federal courts, where the judges are appointed during good behavior.

At the business session to be held late today it was expected that John L. Ruhe, of Richmond, vice president of the association, would be advanced to the presidency.

William J. Calhoun, of Chicago, former United States ambassador to China, addressed the association on the modern tendencies of government in China.

Mr. Moores in his address charged that where judges are elected, that cases are too often decided upon technicalities, rather than on their merits.

"The constitution," said Mr. Moores, "cannot be impaired so long as it is defended by courts and judges independent of the popular vote and by that very fact brave enough to do right in the face of public clamor."

Mr. Moores said the fairest way to compare the two methods of selection of judges was to study the reports of the courts.

"I have recently read the last published volume of the Indiana reports, the 175th. In 706 pages, 83 cases were decided, in 38 of which 92 pages are devoted to a discussion of elementary questions of pleadings and practices. Turning to the last volume of the United States reports I find in the 70 cases decided in 673 pages that the entire discussion of all questions of procedure in the volume being covered in less than 19 pages and in every case the questions presented are fully and apparently fairly decided on their merits."

GIVES BOYS SOME ADVICE.

Pastor Suggests Pursuers of Girls Think of Own Sisters.

Minneapolis, Minn., July 10.—"A spendthrift sweetheart and an extravagant wife have ruined many lives," said Rev. T. W. Stout in a sermon at Calvary Methodist church. "Young women can help to form high moral standards among the boys by not permitting great expenditures upon themselves." He illustrated how laziness makes a weak character that falls in the crisis of life by knocking the prop from under a three-legged chair. "White slavery begins with street-corner meeting, presuming on feminine acquaintance and bold advances to clerks," he said. "It ends in blood money and lost souls. Every young man should ask himself in dealing with girls: 'Suppose my sister were in her place—what would I want done?'"

Vacant Rooms? Don't Worry

If you have not found a tenant for your room, there's no use despairing and "publishing" the fact all over in scare headlines.

"There are just as good tenants in the city as ever been gotten."

The best way to reach them is to place your "For Rent" ad. in the paper that the tenants read. In Fort Wayne nearly everyone takes The Sentinel and reads Sentinel want ads.

EVERY ONE ASKS FOR LAST TRIAL

Managers Usually Sacrifice One Game to That Last Hope.

LOSE CLOSING GAME

Every slumping pitcher, whether he has a bad arm, is out of condition or in company too fast for him, asks a chance to pitch "just one more game" after he is warned that a release or suspension is coming to him, and in most instances managers sacrifice one game to proving themselves right in their judgment.

No written baseball law requires that these requests be granted, but they usually are, and just to show Emory C. Orth that his arm is not fit for use this season, Manager James Thomas Burke sent him against Springfield in the final clash and he was beaten 7 to 0.

This was simply a case of history repeating itself. When Orth came to the Fort Wayne club from Providence the local owner was being cheated just a little as he came here with a bad arm but it did not assert itself until after he had gotten away to a flying start and had piled up three straight victories.

He has been suspended and will not be permitted to play organized ball this season unless his throwing arm gets back to form. Dr. Reese advised him to rest for the remainder of the year, and he was left at home when the club departed for Evansville last night.

In the fourth inning Springfield got to him and piled up four runs before Manager James T. Burke had a chance to apply the grapplers and he decided to take a chance and let the other three hurlers rest up for the campaign on the road.

Orth was strong until the grouped hits were kicked into the first of two bad innings. O'Day did a neat piece of sprinting and beat an infield grounder and took second on an out and third on Markey's single. Stewart hit for two bags, sending in a pair of runs, and scored along with Manager Joe Stanley when the latter hit over the right field fence.

O'Day doubled in the eighth, and after Brautigan had whiffed, Markey's grounder hopped past Tutweiler for two sacks. Stewart bunted and beat the throw and Stanley sent over two with his hit and the third registered while Kelleher was being retired at first. The score:

DAWSON TO QUIT AT THE MEETING

Resignation is One of Things Anticipated in the Interstate.

CANTON ON THE BRINK

Canton, O., July 10.—President Charles A. Dawson, elected at a meeting in Fort Wayne last spring when the old twelve-club Central league was split and six towns given over to the Interstate league, which was organized at the same time, has not measured up to the job and his resignation is one of the things expected at the meeting of the magnates carded for Cleveland on Tuesday of next week.

He believes that he has acted in every case with only the best interests of the league at heart. The magnates have never questioned his integrity, and the stand of the league executive, when he admitted his failure, was accepted as the forerunner of a resignation.

If Dawson resigns an experienced baseball man will be elected to succeed him. The magnates are tired of having baseball enthusiasts instead of good executives at the head of the circuit, and Dawson's stepping down and out will give them the chance that the majority has been looking for.

CANTON ON THE BRINK.

Will Step Down Unless $2,000 is Given to Support the Club.

Canton, O., July 10.—The Canton club of the Interstate league must be helped to the extent of $2,000 by Monday, July 14, or the franchise will be abandoned at the meeting to be held on that day in Cleveland.

This is the announcement made by President Yost at noon following a meeting of the local directors. He declared that the action was final and that Canton would withdraw from the league unless assisted financially to that extent.

"There is no alternative," said Yost after the meeting at which the move was sanctioned. "The owners have been digging into their pockets every pay day, twice a month. Each man has been called on to pay from $100 to $200 every two weeks, with nothing coming in from the gate.

"Canton's representatives at the Cleveland meeting Monday will be instructed to throw up the sponge if the amount is not certain at that time. Zanesville saw that there was no chance of recouping by staying in the league longer and quit."

Yost expects the entire Interstate league to blow up if the Canton club is forced to drop out by the absence of the $2,000 next Monday, as there would be only five clubs left in the circuit. He is positive that Wheeling and Zanesville will not be in the circuit after the Cleveland meeting.

"It takes $2,000 to keep baseball in Canton for the rest of the season," was Yost's parting declaration.

BLOUNT WANTS BRATCHI.

Powers Thought He Would Get Man Bought by Fort Wayne.

(Youngstown Vindicator.)

Manager Paul Powers has opened negotiations for the purchase of Outfielder Bratchi, of the Steubenville ball club. If the Stubs go into winner quarters on July 15, as they have declared they would, Powers will have no trouble in land the gardener, and he will make a valuable acquisition to the Steelmen's roster. Bratchi is one of the sweetest fielders in the league, to say nothing of his hitting ability. He is now slugging the ball at a .325 gait. He is fast on the bases. Powers has tried to persuade the Steubenville management to part with Bratchi several times, but Manager Montgomery refused to consider any offers as long as the team was in the league. Powers will have first call on Bratchi, and the only thing that can possible block the deal will be the decision of the magnates to remain in the race, which is highly improbable.

In case the Stubs and Potters do quit, the players of both clubs will become the property of the league. Several of the clubs have already put in their bid for various players in the lineup of the two teams, and those not spoken for will probably be released. Both teams have some very classy material. First Baseman Swartling, of the Stubs, has been sought by several clubs. Wheeling seems the most likely to land the big first sacker, however.

TRAINS WITH A PICK.

Bill Otey Says He Is Ready to Try the National Game Again.

Dayton, O., July 10.—"Steamboat Bill" Otey, former Dayton pitcher, who was unable to get in shape to pitch this spring because of illness, is now ready to take his turn on the mound for the Dayton club or some other team if Manager Nee has no room for him. He came to town this morning the very picture of good health. He is a living example of what the simple life will do for a man. For several weeks Otey has been doing the hardest kind of work. He has been a common laborer in the employ of the Pitt Construction company, which is making the extension to the waterworks.

Wrestling big iron pipes and other heavy objects has been the making of him. He's as brown as a berry and his eye is clear. He has been living the simple life. His daily program has consisted of hard work, a swim in the evening and then a good long sleep. He's generally in bed before 9 o'clock, he says. It has been eleven weeks since he tasted a drop of any kind of liquor.

EXPECT TO PLAY IN GAMES.

Johnny Nee and Erve Martin were expected today to enter the infield of the Dayton club. Both have been out for some time with injuries, and Leber is still on the hospital list.

MULLIN ABOUT THROUGH.

George Mullin, for several years the star twirler of the Detroit Tigers, is slated for the minor leagues, according to word from Washington. Hughie Jennings cut Mullin loose from the Detroit payroll this season by selling him to Washington. Clarke Griffith is now satisfied that Mullin is through as a big leaguer, and has given him the usual ten days' notice.

Mullin is carded for a berth in the International league at either Montreal or Buffalo.

HOLDING A BOOSTER DAY.

Wheeling Trying to Raise Enough Money to Pay Off Its Players.

Wheeling held a booster day today, with Columbus as the attraction, in an effort to get enough money to pay salaries. E. V. Robertson, who has been trying to stave off the transfer of the club, is about ready to quit.

THE VALUE OF HUMAN LIFE

It would be impossible to compute in dollars and cents the value of human life, yet every one in a normal state of mind puts some kind of a value on their life. We are so used to reckoning values from a monetary standpoint, that it is indeed hard to do otherwise. Yet, who, for any conceivable sum of money, would care to die? Who, unless they were insane, would set a price for which they would agree to see the life of a dear friend or relative lost?

There are many who are practically doing the same thing, simply in a way that they do not realize the absurdity of the course they are pursuing, or the very criminal aspect of the situation.

The greatest scientists of the world are working assiduously to find better and better means for combating disease and the saving of human life. The progress in this direction for the past twenty years is simply marvelous and to those who have not kept close track it would seem almost unbelievable. Disease that a few years ago were considered incurable, are now easily cured. Thousands upon thousands of precious lives have been saved from an untimely death, and the warr progresses. A short time ago the world was led to believe that Dr. Friedmann had discovered a postive cure for tuberculosis. While he failed to prove his statement to be all that was hoped for it, there may be some value in it after all. Yet the public need have little cause for disappointment, DR. HARDMAN, of this city, had succeeded in obtaining and perfecting a combination of serums, antitoxins, etc., that have proved remarkably efficacious in the treatment, not only of tuberculosis, but many other forms of wasting and constitutional disease, dsuch as rheumatism, bloo poison, annemia, etc. He not only has cured many desperate cases of the above mentioned troubles, but has succeeded in discovering new and original methods of curing RUPTURE, FISTULA, VARICOCELE, PROSTATIC ENLARGEMENT, etc., without the use of the knife, or even detention from business, or unnecessary hospital expenses. Thus not only curing his patients at minimum of trouble, annoyance and pain but actually saving them much money and loss of time.

His office is at 111 WEST MAIN STREE, where he can be found any day during his office hours. As he is very busy, indeed, it would be a matter of policy to write him or telephone him for an engagement.

HARD LUCK ONLY AID FOR LOCALS

Grand Rapids Playing Good Ball and Has Kept the Team Intact.

CAPTURE A BRACE

Unless the run of hard luck that comes to nearly every baseball team during each season, when injuries put its players out, the pitchers go bad or the batters slump, or somebody jumps the club, or something like that, hits the Grand Rapids club there is little hope for the locals to overhaul the Bill-Ed combination as it added a brace to its games won in the closing conflicts with the Dayton club, while the luckless Billikens were losing one to the Harvester organization.

In 1910 Eddie Wheeler went through an entire season without a serious mishap and won the pennant, with Fort Wayne right on his heels all the time, and playing in the same hard luck it has played in all this season.

Manager-Owner Ed Smith, George ("Doc") Schmick and Bernard, alias Ben Koehler, were all members of that crew, and maybe they have carried over enough luck with them to tide the club through. Nobody really wants to see ball players hurt and no fair minded sport cares about winning a pennant that is the direct result of ill luck to another club, but the jinx has not been working impartially so far, and Fort Wayne would have been right up in the running but for this.

Edward Pfeffer captured the first half of the doublet from the crippled Veterans with Phil Stremmel working against him. Pfeffer was peppered pretty lively but he kept the hits scattered while the black stockings were trimming his opponent badly after the third inning.

Manager E. Smith took up the hurling in the afterpiece, and Nee's soldiers had him beaten to the last half of the ninth when he let big McGraw bat for him, and the catcher responded with a home run. Then Jack Compton fumbled a grounder and Ben Koehler hit for three sacks and the game went to the leaders. The scores:

GIRL WINS BALL AS SOUVENIR.

Thirteen-Year-Old Makes Wonderful Catch at Brooklyn Game.

New York, July 10.—Annunciata Malafronta, 13 years old, is the proud possessor of a real big league baseball, presented to her by Umpire Quigley as a souvenir of the wonderful catch she made at the Brooklyn-Cincinnati game on Ebbetts field yesterday. In the eighth inning Otto Miller whizzed a sizzling foul into the upper tier of the grandstand in the midst of 6,000 parochial school children. The girls screamed but little Miss Malafronta put up her tiny pair of hands and coolly wrapped them around the ball as if it were only a bean bag.

Not even the sensational running one-hand catch made by Marcans, the Cuban outfielder, in the second inning, caused a ripple of applause compared to the roar that shook the stadium after the little girl's catch. She blushingly handed the ball to one of the ushers, but a minute later Umpire Quigley stepped from his place in the box and tossed a brand new league ball up into the stand for Miss Malafronta.

ED. LONGFIELD'S DOG DIDN'T LOSE

Protested Game with Terre Haute Will Stand as Was Played.

RULING MADE PUBLIC

Ed Longfield's big dog Don is not responsible for the loss of a game by Fort Wayne to Terre Haute on June 26, according to a ruling just made public by President Louis Heilbroner, and the Fort Wayne club will not be set back one in the race for the pennant because the canine barked at Manager Edward Joseph Anderson and checked him in his chase after a ball that Harry Martin hit along the left foul line.

This game was the only one Fort Wayne took from Terre Haute on the last stand and would have been a serious loss to the club. No mention is made of the dog in the ruling but it has since been barred from the field and practically from the park.

Manager Anderson's protest looked good for a while but the president made a thorough investigation before he entered up his finding and it is as follows:

"Decision in re protested Terre Haute-Fort Wayne game of June 26:

"This game was protested by the Terre Haute club; for violation of rule 77; for interference in fielding a batted ball; for permitting a runner to take an extra base on this hit; for insufficient police protection.

"The evidence and proof submitted shows that the Fort Wayne club had the required police officers on the grounds at this game, also that the field was cleared for resuming play within the specified time.

"The umpire notified Manager Burke, as per rule 26, section 5, if the rules were again violated that the game would be forfeited. The umpire reports that there were no further violations.

"The question of interference and also that permitting the runner to take the extra base is one of judgment of the umpire. Under rule 63 there can be no appeal from decisions based on an umpire's judgement.

"The decisions and rulings of the umpire are approved. The protest is disallowed and the game stands as played.

MUST REMEMBER MARRIAGE DATE

Milwaukee Man Sentenced to Repeat It Ten Times Daily

OR HE'LL GO TO JAIL

Milwaukee, Wis., July 10.—"June 14, 1887, June 14, 1887."

When the neighbors of Philip Laborski, town of Lake, hear him mumbling this date, as they undoubtedly will during the next two months, they need not be surprised. Laborski is simply obeying the orders of the judge of the district court.

June 14, 1887, is the date of his marriage to Mary Leborski, and in district court Judge Richard Elsner sentenced him to repeat the date to himself ten times daily until he is sure that it is firmly scratched in his memory.

Leborski, who owns several pieces of property in the town of Lake, had an argument with his wife, and when he resorted to violence she fled to the roof of their home. When a patrolman came along Mrs. Leborski was perched upon the roof, while her husband stood in the yard shaking his fist.

"How long have you been married?" Judge Elsner wanted to know of Leborski.

"Oh, I don't know," he replied. "I have been trying to forget it."

"On what date were you married?" the judge persisted.

"I've managed to forget that, too," he responded.

"That is something no married man must ever forget," the court declared. "Forgetting things of that sort causes more trouble than any other one cause."

"We were married on June 14, 1887, judge," the wife spoke up. "We had a nice wedding, too, if I do say it myself, and there wasn't a better looking——"

"Then June 14 goes," the court declared. "The defendant is ordered to repeat the date to himself ten times daily for the next sixty days. The case is continued until that time, when, if he has mastered the date, sentence will be suspended. If he cannot manage to remember it a term in the house of correction may aid him."

"June 14, 1887; June 14, 1887," Leborski mumbled, as he walked out of the courtroom, with his wife keeping count.

ANTWERP NEWS.

Antwerp, Ohio, July 10.—Alfalfa meetings will be held over the county, in the endeavor to get our farmers interested in this very profitable crop. The first of the series will take place Tuesday, Wednesday yand Thursday, July 15, 16 and 17. The meeting at this place will be held at the home of Nick Harmon, just east of this place, July 15th (Tuesday,) at 11 a. m. The itinerary includes a stop here for dinner.

J. W. Zuber was a Paulding visitor Tuesday, where he was called on legal business.

Hon. J. L. Pocock has again gone to Philadelphia, Pa., where he is taking electric and radium treatment for a cancerous affection on the face, which has been very successful and a cure is assured, which his many friends are rejoicing over.

Mrs. Barbara Wilkison is quite ill at her home in this place, her daughter, Mrs. Patrick Cahill, of Fort Wayne, has been called here to attend her.

N. Harmon and wife are home from a visit at Detroit, Mich., where they were guests of their daughter Mrs. Harry Murphy and family.

Zan Cromley, in company with his wife, are enjoying an outing at beautiful Sylvan lake at Rome City, Ind.

Mrs. Sarah Snyder, of Cleveland, O., is visiting relatives and friends at this place, her former home.

A return to this place Tuesday evening of Mr. and Mrs. Lavon Boon, gave their young associates a chance to get even, and the newly wedded couple were given an old fashioned lalling.

Mrs. H. H. Croy and daughter, of Toledo, are the guests of Melvin S. Day at their home on North Main street.

W. R. Cromley and Othal Rumbaugh were called to Urbana, Ill., Tuesday as witnesses on a kidnaping case, wherein father and mother are trying to obtain possession of a child. The father was here at one time on a visit with the child, the mother following and getting him, after which the case got into the courts.

Walter Hartwell, of Detroit, is here for his vacation, his family having come a few weeks ago. They are the guests of Mrs. Hartwell's mother, Mrs. Emma Hudson, at her cozy home on North Main street.

Joseph Fleck, one of our prosperous north of the river farmers, was a Fort Wayne visitor Tuesday on business.

A trip out into the country with Loyd Long in his auto Tuesday disclosed the fact that the firm of Long & Herzel are some farmers. They having out near forty acres of sugar beets, which are looking fine. Away back in the field could be seen Steve on a six-foot cultivator, stirring the soil and no doubt mentally figuring about how many beets the firm would harvest, and about what the net amount in dollars would be. The view that met our vision as we passed along was one that showed our farmers all busy, corn fields were waving, haying was on and everybody was working, including father. Bounteous crops promise to reward them, as everything looks good to a novice.

Harvey Erter, wife and son Dale, who have been visiting his father, John Erter, at the farm home north of town, returned to their home at Clare, Mich., Tuesday.

Sam Sunday was called to Denver, Ind., the first of the week by the serious illness of his father, Daniel Sunday.

Ed Berg, Floyd Harris, et al., were out to neighboring towns Tuesday putting out advertising for Antwerp's chautauqua that is to be held here July 26 to Aug. 3, 1913.

Paulding county is to have a Carnegie library. Paulding will furnish a location for same and the county commissioners will attend to levying a tax sufficient to maintain same; $4,000 a year it is thought will do the trick. All towns of any importance will be substations and everybody will have a chance to read the books.

Lea Treaster was a Cecil visitor Tuesday, where he visited his aunt and uncle, Mr. and Mrs. Staunton Smeltzer.

VAN WERT NEWS.

Van Wert, O., July 10.—The members of Co. D, Second Ohio National Guard, have been vaccinated against typhoid fever to protect them from that dreaded disease while in Camp Perry, near Toledo.

The six-year-old son of O. P. Engy, of this city, fell from a cherry tree, fracturing his left arm.

Charles H. Rader, who formerly lived on a farm south of town, has filed a suit for divorce from Maude E. Rader, the action being filed in Reno, Nev., while the defendant is a nurse in the Van Wert county hospital in this city. His petition charges desertion.

A. K. Utter, of St. Louis, Mo., who was on his way to visit relatives in Greenville, fractured his arm near the elbow by being thrown violently against the door when a local train upon which he was riding from Ohio City to this town gave a sudden lurch.

PIMPLES WOULD BURN AND ITCH

Over Body and Head. Sore Spots on Arm and Shoulders. Scratched Until They Bled. After Using Cuticura Soap and Ointment a Week, Eczema Left Her.

913 S. Hackley St., Muncie, Ind. — "When my little girl was a tiny baby she broke out in little fine pimples here and there over the body and head. They would be about the size of a quarter after they were broken out and would form a scab for a week or more. Then the scabs would begin to peel off. The disease would itch and give her much trouble. As she grew older they would spread until some places would be as large as a half dollar. Her clothes seemed to make the sores burn and itch. The sore spots were on the top of her arm and two on her shoulders. She would scratch them until they would bleed. Sometimes in combing her hair it would come out.

"I used ——— for a while but it did not seem to be any good and I used ——— also without result. She continued to break out with the eczema until I wrote for a sample of Cuticura Soap and Ointment and used them. I purchased some more and the scabs came off and I could comb them out of her hair and it healed up just finely. After using Cuticura Soap and Ointment a week the eczema left her." (Signed) Mrs. Laura Graves, Nov. 27, 1912.

For treating poor complexions, red, rough hands, and dry, thin and falling hair, Cuticura Soap and Cuticura Ointment have been the world's favorites for more than a generation. Sold by druggists and dealers throughout the world. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

HOW $20,000 WAS OFFERED TO EVERYONE

Miss Lillian Russell writes

The best homes in England have for years used an article from a recipe called Waw-Waw, which was prepared by a young English singer who had suffered with indigestion for years, by the suggestion of a noted French doctor, and $20,000 was offered to any one in England who could analyze the Waw-Waw correctly. Waw-Waw (an obsolete South American Indian word for vegetable) contains no raw spices, drugs or coloring matter and is absolutely pure. It is a sauce unlike all others, but in flavor resembles a Worcestershire, but the ingredients contained are quite different and when added to the cooking or with soups, salads, hot and cold meats and fish it gives a flavor unequalled, and at the same time notice how easily your food is digested. The great cooks in Europe pronounced Waw-Waw unexcelled. So great has been the success of Waw-Waw that it is to be found in all parts of the world. A 25-cent bottle from your grocer will convince you how much more you will enjoy your food and how easily anything can be digested. Miss Lillian Russell, the beautiful actress, writes: "Waw-Wah is delicious. Added to soups, salads, meats and fish it is unequalled."

SHOP AND RAILROAD NEWS

FORMER PENNSY SHOPMAN DEAD

News of Demise of Charles Blaisdell Reaches Old Comrades.

BEGAN WORK HERE FIFTY YEARS AGO

Was One of the First Apprentices in Pennsylvania Shops.

Relatives and friends of the family have just received news of the death of Charles Blaisdell, which occurred some time ago in St. Louis, where he lived several years. The deceased was a native of Fort Wayne and learned the machinist's trade and worked in the Pennsylvania shops many years. All of the older employes in that shop knew him and will be sorry to learn that he is dead. Mr. Blaisdell was among the several mechanics who followed Mr. Bradley to Grand Rapids to work in railway shops in that city. He worked there several years, his latter service being in the capacity of round house foreman. A few years ago he resigned and went to Kansas City, where he was employed a short time and then went to St. Louis. At that place his wife and one of his sons died. Mr. Blaisdell was a nephew of C. H. Philey, a well known farmer residing south of the city, and news of his death reached the city through a letter from St. Louis to that gentleman.

LEE MAKES STATEMENT.

Makes Public Earnings of Conductors and Brakemen.

In a statement to the public concerning the wage controversy now on between the eastern railways and the conductors and brakemen, Elisha Lee, chairman of the Railroad Conference Committee of Managers, gives the amount of wages the conductors and brakemen on five of the lines interested drew during the year 1912. According to Mr. Lee's statements, the annual earnings of Pennsylvania employes was as follows: Passenger conductors, $1,636; passenger trainmen, $961.75; freight conductors, $1,326.55; freight trainmen, $901.72; yard conductors, $1,238.76, and yard trainmen, $1,102.36. Preceding this table, Mr. Lee says: "One hundred thousand conductors and trainmen on eastern railroads want their wages increased $17,000,000 per year. They may strike because the railroad managers' committee do not feel that an increase is warranted. The managers' committee, therefore, in justice to the public—who must pay the railway wage bill in the end—and in justice to their companies, have refused to make the increase."

CUBS' FOOD.

They Thrive on Grape-Nuts.

Healthy babies don't cry and the well-nourished baby that is fed on Grape-Nuts is never a crying baby. Many babies who cannot take any other food relish the perfect food, Grape-Nuts, and get well.

"My baby was given up by three doctors who said that the condensed milk on which I had fed her had ruined the child's stomach. One of the doctors told me that the only thing to do would be to try Grape-Nuts, so I got some and prepared it as follows: I soaked 1½ tablespoonfuls in one pint of cold water for half an hour, then I strained off the liquid and mixed 12 teaspoonfuls of this strained Grape-Nuts juice with six teaspoonfuls of rich milk, put in a pinch of salt and a little sugar, warmed it and gave it to baby every two hours.

"In this simple, easy way I saved baby's life and have built her up to a strong healthy child, rosy and laughing. The food must certainly be perfect to have such a wonderful effect as this. I can truthfully say I think it is the best food in the world to raise delicate babies on and is also a delicious healthful food for grown-ups as we have discovered in our family."

Grape-Nuts is equally valuable to the strong, healthy man or woman. It stands for the true theory of health. "There's a reason," and it is explained in the little book, "The Road to Wellville," in packages.

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.—Adv.

WANT MORE EXCURSIONS.

The Cedar Point Resort company had a representative here yesterday in the person of A. J. Boeckling looking over the field with a view of getting industrial concerns to send excursions to Cedar Point. Mr. Boeckling visited the Perfection Biscuit company and the Bowser works and started negotiations with them for an excursion this summer. The result will not be known for awhile. The Fort Wayne Electric Works Mutual Benefit association will have its annual excursion to Cedar Point July 26 and arrangements have been made for four trains, to run over the Lake Shore line.

ELECTRICIANS' EXCURSION.

Over 2,500 tickets for the annual excursion of the Mutual Benefit association of the Fort Wayne Electric works have been placed in the hands of the salesmen and it is said that the demand even at this early date is great. Arrangements for the amusement and comfort of the excursionists are in progress and they provide for lunch boxes to be distributed on the train at 15 cents each, which will be sufficient to satisfy the most hearty appetite. The committee believes the excursion party will reach the 2,500 mark.

INSTALLING AIR COMPRESSOR.

The massive air compressor received ten days ago at the Pennsylvania power plant is now being installed, the millwrights taking up that work this morning. Until the new compressor is in operation the old one will be retained in service. It has a capacity of 750 cubic feet per minute, while the new machine has a capacity of 4,400 cubic feet.

BLACKSMITH BADLY HURT.

William Alt, Wabash blacksmith, severely wrenched his right ankle at 10:30 o'clock this morning as his foot turned under when he stepped upon a hammer handle. The wound was so painful that Mr. Alt could not walk and a taxicab was called to take him to his home, where Dr. Kaadt is attending him.

FINGER BADLY PINCHED.

John Fraine, a Pennsylvania blacksmith, is congratulating himself on the escape from loss of a finger this morning. The digit was caught in the big shears while Mr. Fraine was cutting iron and was painfully cut, but not so as to make amputation necessary. It was a lucky escape.

WILL TOUR THE EAST.

This evening Harry Emmerson, foreman of one of the departments of the Pennsylvania machine shop, and his wife will leave on a pleasure trip in the east. They will visit New York, Atlantic City, Washington and other cities of importance and be gone from home about two weeks.

GONE TO BLACK HILLS.

Engineer and Mrs. George Quidor and two children are en route to Black Hills, North Dakota, where they expect to spend two months with friends. Mr. Quidor who works for the Nickel Plate, has obtained a three months leave of absence.

HEAD OF RAILROAD TRAINMEN.

W. G. LEE, president of the Brotherhood of Railroad Trainmen, who have voted to strike on eastern roads.

THREE MORE FIREMEN.

R. J. Sorg, W. A. Fox and A. Reinsnyder are new firemen on the Pennsylvania and John W. Dickson, of Geneva, is a new fireman on the Grand Rapids and Indiana road. They are now making their maiden trips over the divisions.

INDUSTRIAL NOTES.

Nickel Plate Brakeman H. E. Crance is sick and off duty.

Pennsylvania Shopman Ensign George is sick and off duty.

Machinist William Raber resigned a position at the Bass works yesterday.

Frank J. Grim, Nickel Plate yard conductor, is spending two weeks at Lake James.

An injured eye is keeping Engineer George Schwartz from work on the Nickel Plate.

Machinist William Leach, of the Pennsylvania shops, is temporarily disabled by an injured hand.

Engineer C. M. Crawford, of the Nickel Plate, is off duty on account of sickness in his family.

R. S. Augsburger, traveling storekeeper for the Wabash, is in the city on business for the department.

After a three weeks' outing at the lakes, Fireman C. A. Prince has returned to work on the Nickel Plate.

Fireman E. S. Tenguerden, who has had been taking a week's lay off reported for duty on the Nickel Plate yesterday.

D. H. Grable, C. N. Minser, H. W. Frase and Joseph Bracht, Nickel Plate engineers are spending the week at Lake James.

Yard Conductor Fred Thiebold, of the Wabash, is off duty on account of the illness of his wife, who is suffering severely from rheumatism.

Machinist C. J. Majors and Boilermaker W. C. Cherry of the Nickel Plate roundhouse have returned from an outing at Lake James.

B. F. Sarver, general foreman of the boiler department of the Pennsylvania shops, left last night for Mahoningtown on business for the company.

Nickel Plate Engineer W. O. Granger has obtained a twenty days' leave of absence and with his family is spending the time in his cottage at Lake James.

Engineer Charles Frankhart, of the Nickel Plate, is still unable to work on account of injuries sustained over a week ago, when he was thrown from his motorcycle.

George Francisco, Wabash paymaster, was in the city in that capacity today. The employes of the Bass Foundry and Machine company also received their wages today.

Mrs. S. T. Hooper and Mrs. O. F. Merriett wives of Nickel Plate engineers will leave the latter part of the week for Atlantic City, where they will attend a convention.

F. W. Baldwin road foreman of engins of the Nickel Plate, was taken suddenly yesterday with a severe attack of lumbago. He had to quit work and go home.

M. Hoefler, operator on traveling crane No. 2, in the Pennsylvania erecting shop, resigned this morning. He has secured work in the waterworks department of the city.

J. H. Holbrock, chief shop clerk of the Pennsylvania, had a meeting with the time clerks this morning, in the committee room. Matters connected with the pay rolls were discussed.

Wm. Smart, Nickel Plate train crew caller, and his family are spending two weeks at Crooked Lake. Walter Fagg, a clerk in the yard office, is calling crews during the absence of Mr. Smart.

E. J. Shafer, a fireman at the Pennsylvania power plant, is in Chicago spending a few days with friends. E. J. Hoepkemeyer, another fireman, has recovered from an illness and resumed work.

All the members of the Wabash Division Safety committee are here today to attend the monthly meeting at the Anthony, which is presided over by Supt. J. C. Sullivan, chairman of the committee.

Chester A. Werkman, a clerk in the Pennsylvania trainmaster's office, is out on a vacation this week. George Ecker, stenographer for Chief Car Inspector O. J. Parks, is also out on a vacation this week and has gone east.

Fireman E. Chevanne, who represented Anthony lodge B. L. F. and E., at the bi-nnial convention in May is still east and will not return home until the latter part of july. He is in Philadelphia this week.

J. Cross Cameron has taken employment in the foundry office at the Bass works. Machinist Metz is also a new name on the pay rolls at the Bass works. He was formerly employed by the Wayne Oil Tank works.

Christian Schwartz has returned to Chicago to resume his work as switchman in the Illinois Central yards. He was here several days visiting relatives and friends. Some years ago Mr. Schwartz was a brakeman on the Nickel Plate road.

Frank Post, who serves the Wabash division safety committee as secretary on the occasion of the monthly meetings, is sick today and Mearle Thomson, stenographer in Master Mechanic G. W. Smith's office, is officiating as secretary at the meeting today.

A card from Matt Harres, clerk at the Pennsylvania round house, states that he will spend this week at Los Angeles and the ocean resort towns near that city. Next week he will go to San Francisco, where he will spend several days and then begin the journey homeward.

Trace Bauer and family left last night for the east, where they will spend two weeks with relatives and friends. Prior to fifteen years ago Mr. Bauer was employed in the Edison Phonograph works at Orange, N. J., and he will visit old comrades in that city. Mr. Bauer is a machinist at the Wabash shops.

The next improvement to be undertaken by the Lake Shore at Fort Wayne will be the installation of steel automatic coal docks just north of the roundhouse, similar to the new docks of the Wabash. The work will be done some time this fall. The foreign laborers who were engaged in putting down the new yard tracks on Clinton street have been transferred to Hillsdale, where improvements are in progress.

HIGH SCHOOL TO HAVE SEX STUDY

(Continued from Page 1.)

Superintendent Ella Flagg Young and sanctioned by the school management committee. It was adopted by a vote of 11 to 2. Those who voted against were Mrs. John MacMahon and Trustee Thomas Kelly. Trustee Henry A. Lipsky, active in opposing the new subject, was absent.

Instruction Begins in Fall.

Instruction in the new subject will begin with the opening of the coming autumn term. The report carried an appropriation of $10,000 out of the contingent fund for salaries of the instructors.

Trustee Jacob M. Loeb, father of the original resolution, presented the amendment changing the name of the study. The amendment also provides "that if, as a result of the successful teaching of this subject in the high schools, it be deemed advisable to extend the work to the upper grades of the elementary schools, the superintendent be instructed to prepare a plan for the carrying of the work into the elementary schools, this plan to be submitted for approval to the committee on school management."

By the terms of the report as adopted by the board specialists in sex hygiene shall give a course of three lectures to all high school pupils. After December, 1913, and during the spring term of 1913, the lectures shall be given in first year classes in hygiene, physiology, or biology.

Boys and Girls to Be Separated.

For the purposes of this instruction the boys and girls shall be separated. Pupils, who bring notes from their parents objecting to the subject will be excused.

An executive session of the school management committe was held prior to to the convening of the board. At this meeting the term "personal purity" was adopted, at the suggestion of Trustee Julius F. Smietanka, and the decision was made to limit the study to the high schools at first.

Among citizens who wrote letters commendatory of the study were President A. W. Harris, of Northwestern university; Miss Jane Addams, Dr. Frank Billings, Celia Parker Wooley, Rev. J. P. Brushingham, Judge Merritt W. Pinckney, of the juvenile court; Prof. Charles R. Henderson, of the University of Chicago; Prof. Oliver F. Ormsby, of Rush Medical college, and Miss Clara F. Seipel, assistant city physician.

BOOSTS COST OF DYING.

High Price of Cemetery Lots Laid to Walla Walla Mayor.

Tacoma, Wash., July 10.—Recall petitions demanding removal of Mayor Gills and Commissioner George Struthers, of Walla Walla, upon grounds of misconduct and malfeasance in office have been filed at Walla Walla by J. W. Brooks, former city attorney, and O. D. Taber, a former policeman. The petitioners claim taxes have been increased without cause, that unjust license fees have been charged and that the price of lots in the city cemetery have been increased without cause. It is said the several petitions contain the names of approximately 1,400 registered voters. The names are checked by City Clerk Jones.

INDEPENDENTS TO GET G. O. P. HELP

Republicans Enthusiastic in Support of Non-Partisan Movement.

HEATON IS CHAIRMAN

Attendance at the republican meeting held Wednesday evening at the office of Judge Owen N. Heaton, demonstrated that voters of all walks of life are in sympathy with the proposed independent, non-partisan ticket. Business, professional and laboring men to the number of 150 were present at the session and all were enthusiastic over the prospects of electing a municipal ticket this fall that will remove politics from the city affairs.

Addresses were made by Judge Sol A. Wood, Dr. Budd Van Sweringen, B. Paul Mossman, Charles Pidgeon, Councilman E. A. Wagner and John C. Werkman, and Judge O. N. Heaton was appointed to act as chairman of a special committee of ten, which will later meet in joint session with committees from the ranks of the progressive and democratic party. Judge Heaton has been instructed to select the members of his committee and he will complete his list not later than Friday evening.

Nearly as many republicans attended this informal meeting last night, as voted for W. H. LaTourette, the candidate for mayor, at the primaries last June. LaTourette, the candidate on the straight ticket received but 190 votes in the entire city at the primary election, while 150 republicans flocked to Judge Heaton's office and participated in the enthusiastic discussion favoring the nomination of the independent ticket. Independent progressives, democrats and republicans are more than pleased at the showing made last night, and the consensus of opinion, according to Judge Heaton, is that they "would never vote for W. J. Hosey, directly or indirectly," all of which means that they would not vote the regular republican ticket in the forthcoming election.

Have No Candidates.

Candidates were not discussed at the meeting and the fact is that nothing definite in the selection of candidates will be done until after Mr. Heaton appoints his committee, and after the joint meeting of similar committees of the progressive and democratic voters.

At this joint session an independent platform will be framed, and initial steps will be taken in forming the petition for the non-partisan ticket. This work will take considerable time, and it is likely that the independent sympathizers will find themselves busily engaged during the greater part of the summer, but until the work is completed the platform publicly announced, no candidates will be named, according to announcement made this morning by those who are engaged in preliminary arrangements for the perfecting of the organization.

Men Are Well Pleased.

"I was certainly surprised at the attendance," said Judge Sol A. Wood. "When we issued the call for the meeting we did not look for an attendance of more than fifteen or twenty republican men, but before the session had fairly started Judge Heaton's office was filled to capacity and the men were standing about the sides of the three rooms which comprise his suite of offices."

William M. Leedy declares that he never saw a more thorough expression of enthusiasm over municipal affairs than was shown by the republicans who are supporting the independent movement.

"I was really surprised," he said. "There were a large number of shopmen in attendance and they were loud in their expressions of favor over the plan to rid Fort Wayne of politics in the administration of its affairs."

G. V. ELECTRICS SIMPLICITY

The simplicity of the G. V. Electric Trucks gives them a tremendous advantage over other types of commercial cars. They are simple in design, having a few motive parts—all rotating—and simple in control, thus easy to operate.

The entire driving mechanism of a G. V. Electric may be summed up in four items: Motor, Morse Chain, Countershaft, Roller Chain Drive. There are no reciprocating parts—no cylinder, carburetor, ignition, magneto, or clutch troubles, because the G. V. has none of these troublemakers in its system.

Again, all six of the G. V. models are standardized and all parts of each model are interchangeable and readily accessible.

These facts explain why the G. V. Electric has the lowest maintenance cost of any power vehicle.

G. V. Electrics are, because of their simplicity, exceptionally economical. If, when you sell your horses and adopt motor trucks, you invest in V. G. trucks, you can by reason of their simplicity and ease of operation utiliize your present force of drivers—men who require no "breaking in" as to routes, etc., something hardly ever practicable in the case of other motor trucks.

When you want facts about motor trucks — comparative costs of motor and horse delivery, maintenance costs of electric trucks, etc., why not come to headquarters for them?

Administrator Sues for the Death of M. E. O'Brien Last Year.

NEWS OF THE COURTS

Abe Ackerman, administrator of the estate of Morgan P. O'Brien, deceased, today filed suit in the superior court against the Fort Wayne and Northern Indiana Traction company for $5,000 damages. It will be recalled that O'Brien was struck by a street car on Calhoun street, the night of August 5, 1912, and received injuries from which he died four days later at St. Joseph hospital. He was walking on Calhoun street at a time when the new cement walks were under construction and was compelled to make his way out in the street because of the heaped up litter and materials. It was while so doing that he was struck by an East Creighton avenue car, and carelessness on the part of the motorman is alleged. The accident occurred at a point between Lewis street and Douglas avenue. O'Brien was en route to the Rich hotel, where he had been stopping. His home was in Ivesdale, Ill., where his family now resides, and he was employed by the Strauss brothers, the big real estate dealers. Mr. Ackerman, a member of the firm, was appointed administrator in order to file the suit.

Sicilian Girl Gives Bond.

Josie LaRosa, the sixteen-year-old Sicilian girl who dangerously stabbed Josephine Sarci, another Italian, during the progress of a fight on Melita street, was released from jail today. Her friends put up a cash bond of $500 for her. She was glad to gain her freedom from jail, although she had been much looked after by her friends, who kept her well supplied with ice cream, fruit and other dainties while she was a prisoner.

Cited for Contempt.

Judge Yaple in the superior court today issued a citation for contempt in which William F. Fisher is required to come into court and show cause why he should not be punished for failure to comply with the court's order in a divorce decree, given Merlie F. Fisher, to pay his former wife monthly alimony. Fisher is required to appear July 15.

Notes of the Courts.

Frederick William Stein files in the superior court a divorce complaint, in which he says his wife, Minnie, habitually neglects her duties as a wife, will not prepare his meals or in any way concern herself with his wants and nags him continually. They have been married three years and separated this week.

Claude Newcomb's divorce complaint, in the superior court, charges Elizabeth Newcomb with loose conduct in going riding with strange men, writing love notes to her male friends and staying out all night. They were married in Warsaw in 1903 and separated several months ago. The custody of an eight-year-old child is asked by the plaintiff.

Jeremiah Molloy has commenced suit in the superior court for divorce from Alice Molloy. He says in his complaint that they were married in October, 1898, and that the following year his wife left him and has since steadfastly refused to return, although he has made every effort to induce her to do so.

COMMISSIONERS' COURT.

The board of commissioners today granted a liquor license to Philip Cambray, for his saloon at the corner of Calhoun street and the Nickel Plate railway track. Cambray's license was held up pending the disposition in the city court of a case against his bartender for selling on the Fourth of July. The commissioners considered that the offense was the bartender's and not Cambray's.

The commissioners again delayed decision on the application of J. L. McKee to have the license of John E. Hartzell transferred to him. The saloon is at the corner of Columbia and Clinton streets. The board has already made two postponements of its decision.

The commissioners this morning made a visit to the county poor farm to inspect some work there and this afternoon has gone to Huntertown to investigate a road matter.

COMPANY INCORPORATES.

Articles of incorporation of the North Wildwood company have been filed with County Recorder Hursh. The company is organized to buy and sell lands and to build houses. It will handle the new addition called North Wildwood on State boulevard opposite the Feeble Minded institute. The capital is $45,000 and the directors are L. J. Ninde, Fred B. Shoaff, C. H. Worden, D. B. Ninde, and Clint R. Killaon.

DISTRIBUTING SCHOOL FUND.

County Auditor Calvin H. Brown is busy preparing to distribute the state school fund to the several townships. The county's share was received yesterday, the total being $88,494.19. Of this $24,000 is from liquor licenses, $2,859.20 from the dog tax fund, and $1,149.55 from the congressional interest fund. The city's share of the total is about $55,000.

WILL REVISE 'EM UPWARD.

Central Freight Association Calls Rate Meeting at Chicago.

Chicago, July 10.—The Central Freight association has called a meeting for Monday to consider the revision of freight rates, both class and commodity, affecting shippers in at least thirteen states.

The notice sent to general freight agents by Eugene Morris, chairman of the executive committee, requests them to bring "your rate clerks, to take action in connection with the subject of revised rates between points in official classification territory." Mr. Morris would not discuss the probable action of the agents.

Stations in Illinois, Indiana, Iowa, Kentucky, Maryland, Michigan, Missouri, New York, Ohio, Pennsylvania, West Virginia, Wisconsin and Ontario are listed in Central Freight association territory.

The notice does not indicate what form the revision will take, but it is said the matter of an increase in rates will be discussed.

A prominent west country farmer, attending the opening of a new co-operative milk depot at Bath, declared that he had not drunk a glass of milk for twenty years before attending that gathering, when he had one for the novelty of the thing, and was delighted with the taste. —London Tit-Bits.

THE MARKETS

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, July 10.—Wheat turned stronger today in response to the bullish aspect of the government report. September, which started at 88⅝c to 89¼c, reacted to 88⅝c.

The close was easy, with September ½c net higher at 88¼c.

Corn suffered from a general rush to sell, the government report as to that grain having been more bearish than expected. September opened at 61⅝c to 61¾c, touched 61⅝c and then fell to 61@61⅛c.

The close was firm at 61⅞c for September, a gain of ¼c net.

Leading houses put pressure on oats. September started at 40⅝c to 40⅝c and descended to 39⅝c.

Provisions weakened with hogs. First sales with September were $20.97½ for pork, $11.62½ to $11.65 for lard and $11.82½ for ribs.

THE DAY ON WALL STREET.

New York, July 10.—Stocks were in better demand at the opening today and prices were higher. Business was principally in a few of the speculative leaders. The strongest stock was Union Pacific, which rose two points on the first few transactions. Canadian Pacific, the weak feature yesterday, moved up 1%. Southern Pacific and Reading gained a point.

The comprehensive rise of the market in the early trading bore out the contention of the bulls that the short interest had been expended considerably by recent selling, which made possible a successful drive at the bears. Announcement of President Wilson's action to avert a strike of trainmen and conductors on eastern railroads, and Secretary McAdoo's assurance that government bonds would be protected in framing a new currency law, were primary causes of the improved feeling. Bonds were steady.

The market closed heavy. New York Central declined a point on Washington dispatches regarding Senator Norris' proposal for a congressional investigation of the contemplated consolidation of New York Central and Lake Shore. Pressure also developed in other sections of the list.

NEW YORK MONEY MARKET.

New York, July 10.—Money on call steady, 2¾ per cent.; last loan, 2¼ per cent.; closing bid, 2 per cent.; offered at 2¼ per cent.; time loans, strong; 60 days, 3@3½ per cent.; 90 days, 4@4¼ per cent.; six months, 6 per cent.

THE DEATHS.

FUNERAL NOTICES.

Miles.—Funeral services for Julia Ann Miles Saturday morning at 10 o'clock from the residence of her son, Professor F. W. Miles, 1225 Dayton avenue. At 12:30 o'clock the body will be shipped to Fountain City, where funeral services will be held Sunday at the home of a daughter, Mrs. Albert Williams. A son, who resides at Imperial, Cal., will meet the funeral party at Fountain City.

Martin.—Funeral services for William Martin Friday afternoon at 2 o'clock from the residence, 623 Hendricks street, and at 2:30 o'clock from St. John's Lutheran church. Pall bearers have been selected as follows: Sylvester McMaken, Henry Morrell, Ernest Spiegel, August Korn, Fred Ehrman and George Motz.

Nahrwold.—Funeral services for Carl Nahrwald Saturday afternoon at 2 o'clock from the residence, 815 East Lewis street, and at 2:30 o'clock from St. Paul's Lutheran church.

Bill Nye was once introduced to Wagner, the composer. In "Then and Now," Dean Hole relates: "Nye, the American humorist, brilliant as the best, whose comedy never fails to charm, and whose tragic death I shall never cease to mourn, told me that when I met Wagner he said to him, 'Your music is beyond my comprehension, but I always feel sure when I hear it that it is really much better than it sounds.'"

LOCAL FORECAST.

Fort Wayne, Ind., July 10.—For Fort Wayne and vicinity: Fair and slightly warmer tonight and Friday.

GENERAL FORECAST.

For Indiana: Fair tonight, warmer in north portion; Friday fair and warmer.

For Ohio: Fair tonight; Friday fair and warmer.

For Lower Michigan: Fair tonight; warmer west portion; Friday fair and warmer.

SUMMARY OF WEATHER CONDITIONS

Moderately cool weather has overspread the northern portion of the country from the middle and upper Mississippi valleys eastward to the Atlantic coast. Some showers have occurred since yesterday morning throughout the Ohio valley and the north Atlantic coast districts, but this morning fair weather is quite general over the central and eastern portions of the country.

Another low pressure area has appeared in the northwest, and under its influence high temperatures were recorded yesterday over the upper Missouri valley, Miles City, Mont., reporting a temperature of 104 degrees. Some showers and thunderstorms are reported from the northwest in connection with the low pressure area.

The northwestern low pressure area will spread slowly southeastward, and will give fair and slightly warmer weather in this section tonight and Friday. The rainfall which appears to be accompanying the storm will not be felt in this section before Friday night or Saturday.

TO PREVENT ICE FAMINE

(Continued from Page 1)

the situation. This makes it too easy to eliminate competition and place the people at the mercy of the ice dealers. The past two weeks has served to give a positive demonstration that at a time when everybody most wants ice and when it is a necessity to many there is no way by which the emergency can be met.

Co-Operation the Remedy.

"I do not care to assert that the late famine was a created situation, but it cannot be denied that with but two ice companies in the city such a situation could be easily created. Co-operation will assure plenty of ice and keep prices established where they should be. I personally am in favor of municipal ice and if the city were at present in a financial position to undertake such a municipal enterprise I would urge it. The people ought to have ice and be guaranteed a certainty of supply at prices that are fair, just as they are given lighting by electricity and a pure and untailing water supply by the operation of municipal enterprise. However, that is impossible just now and I believe a co-operative movement the best substitute."

"Do you believe a co-operative movement could be launched in Fort Wayne?" Mr. Loehler was asked.

Would Interest Hundreds.

"I see no reason why it could not," said Mr. Loehler. "I believe that hundreds of workingmen in Fort Wayne would take stock in such an enterprise. I personally know of a number of grocers, meat dealers and saloonkeepers who would invest money to a considerable extent in such an enterprise. Stock issued in shares of five dollars would bring in a vast number of ice consumers. I have no doubt enough stock could be sold to establish a plant to make artificial ice and to erect storage houses for natural ice.

"It seems to me that the city ought to be willing in the interest of the public to permit ice to be cut from the lake at Reservoir park. That body of water could be flooded as often as there was need during ice-making weather and it would afford an abundant supply of the finest natural ice that can be imagined. The city could charge the co-operative company enough to defray the cost of pumping the water to flood the lake and establish necessary regulations to protect the park from damage by hauling. There are good sites for ice houses at no great distance and they are located conveniently to all parts of the city."

Others Approve the Plan.

Mr. Loehler states that other men active in the Fort Wayne affairs of organized labor agree with him and says that the plan has been discussed among them.

John C. Werkman, former president of the Federation of Labor and for many years president of the Barbers' local union, stated today that he had thought well of the proposal and had discussed it with others.

"Certainly something ought to be done to prevent another midsummer situation like this," said Mr. Werkman, "and I believe the plan for a co-operative movement would succeed."

Frank J. Schwanz, president of the Power Pipe Fitters' union, took a similar view of the matter.

"We want ice when we want it and there isn't any doubt that everbody has wanted it mighty bad during the past two or three weeks," said Mr. Schwanz. "There were hundreds and hundreds of Fort Wayne's regular consumers of ice who could get none delivered during several days of the hottest weather for years. That is wrong and worse than wrong, for in families where there are invalids or very young infants the want of ice in such weather means peril. Ice ought to be as common, as easy to get and, proportionately to the cost of producing and delivering it, as cheap as city water. A co-operate company properly organized and sufficiently capitalized would be a winner and the most popular undertaking this city has seen for many a day."

James A. Loney, an officer of the Federation and a member of the Power Pipe Fitters' union, expressed similar views and declared himself favorable to any movement that could be launched to that end.

Likely to Come Up in Federation.

These leaders in the labor movement said that the matter of a co-operative ice company would probably be discussed in the regular meeting of the Federation of Labor Monday night. While it is in no wise likely that the movement could be launched under the official auspices of the federation, the members of that body may decide to take the preliminary steps looking to such an enterprise, and consult with grocers, saloonists and butchers, as well as ice consumers generally about the movement to ward off another ice famine and to keep prices within reach.

The board of directors of the Federal Securities and Investment company met Wednesday night at the Commercial club and re-elected J. F. Patterson as president. William F. Graeter was elected vice president and J. G. Wolfrum was retained as secretary and treasurer. The old board of directors was reappointed at a meeting of stockholders held earlier in the day.

EHRMANN OUT ON BOND.

Wealthy Terre Haute Man Gives Surety for $25,000.

Terre Haute, Ind., July 10.—Emil E. Ehrmann, wealthy overall manufacturer, charged with murder in the first degree for the killing of Edward Wade, a member of the local teamsters' union, during a strike at the Ehrmann plant May 27 last, was released on $25,000 bond yesterday afternoon by Judge Charles M. Fortune, at the circuit court.

The action of the court followed a three days' hearing on a petition for admission to bail and all the evidence given at the hearing was from the witnesses furnished by the state.

In handing down his ruling Judge Fortune said that the evidence given by the witnesses was not sufficient to hold the accused on a charge of murder in the first or second degree.

BUT TEN REMAIN IN PRISON.

Two More Convicted Dynamiters Get Freedom on Bond.

Leavenworth, Kan., July 10.—Michael J. Young, of Boston, and Charles Wachmeister, of Detroit, convicted at the dynamite conspiracy trial at Indianapolis, were released from the United States penitentiary here when notice was received from Chicago that their bonds had been approved. The two men left at once for their homes.

Only ten of the thirty-three men brought here from Indianapolis, January 1, now remain in prison.

BIG STAMP COUNT ENDED.

Postoffice Inspectors Complete Task in Eight Days.

Washington, July 10.—Postoffice inspectors have just completed counting more than one billion postage stamps in the bureau of engraving and printing. In exact figures, the number that passed under the hands of the busy office was 1,323,199,508.

The stamps have a face value of $30,452,121.73 and they constitute the reserve supply ordered some time ago by Postmaster General Burleson. The inspectors descended on the bureau without warning with the intention of testing thoroughly the checking system employed between the department and the bureau. At the expiration of eight days' work the officers discovered that the count tallied exactly with the department's record.
